FOR HAIR SALONS, BARBERS, BEAUTY INSTITUTES, NAIL STUDIOS, SPA AND MASSAGE

# AllMight Beauty

Hair, beauty, nails, spa

by computerization4u

# For the whole salon

The whole day of the salon on one screen: who is booked, with whom, for how long. Customers book by themselves on their phone, get a reminder, and pay with a receipt at the end. The colour formula and the allergies are there before you start.

### The front desk

Books and moves appointments, finds the first free time, takes payment and issues the receipt.

### The stylist, the therapist

Their day on the phone, the customer’s treatment card and their own commissions.

### The customer

Books on the phone without a password, gets a reminder and cancels if they cannot come.

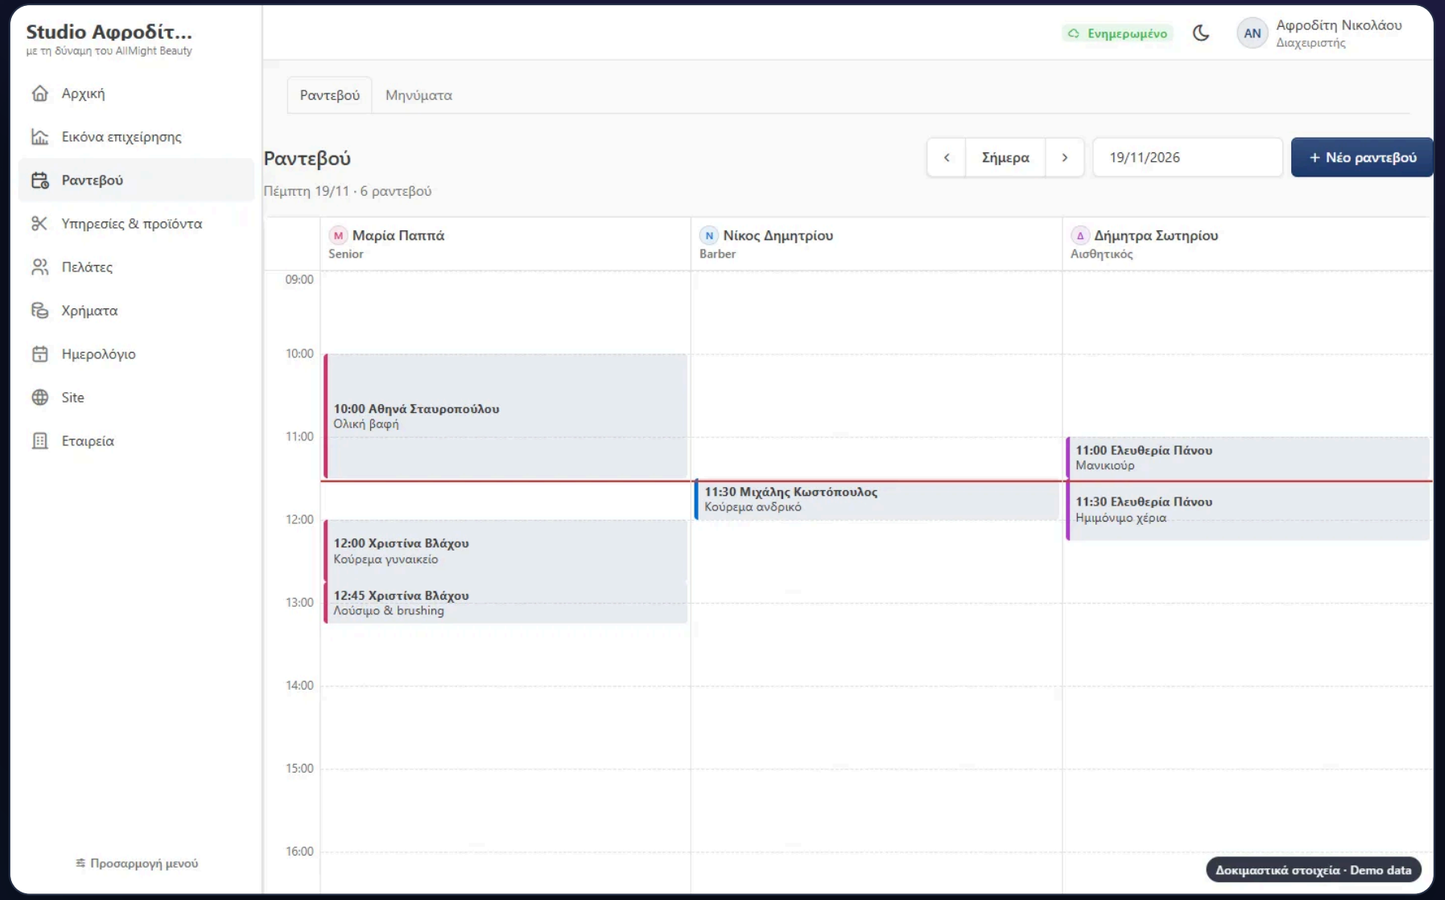

### The owner

The day’s takings, commissions per person, packs, points and messages to those who have not come back.

# The appointment book

One column per person, with their hours, breaks and days off. Tap an empty spot to book that person at that time. On the phone each person sees their own column.

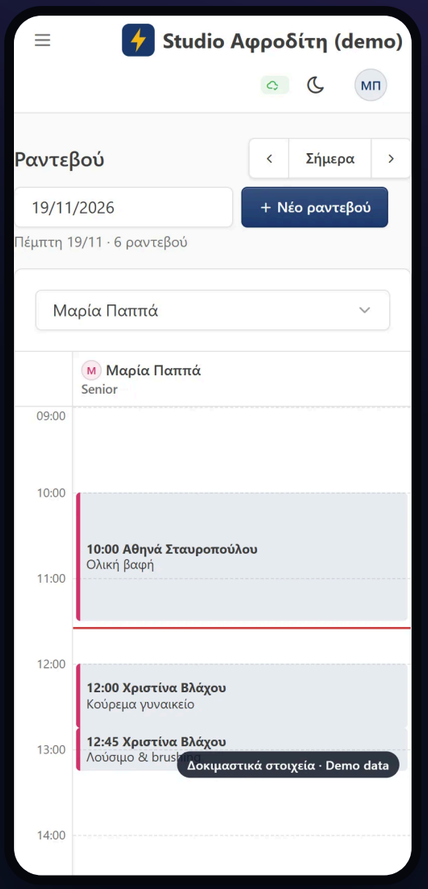

- ✓ Several services in one appointment, one after the other
- ✓ «First free times» for the service the customer asks for
- ✓ It will not book over another appointment or outside hours, unless you want it to
- ✓ Places (chair, room) never taken twice

# Everyone on their own phone

The stylist, the barber, the therapist open the day on their phone, see who is coming and for what, and press «Arrived» or «Done». A new appointment from the phone in two taps.

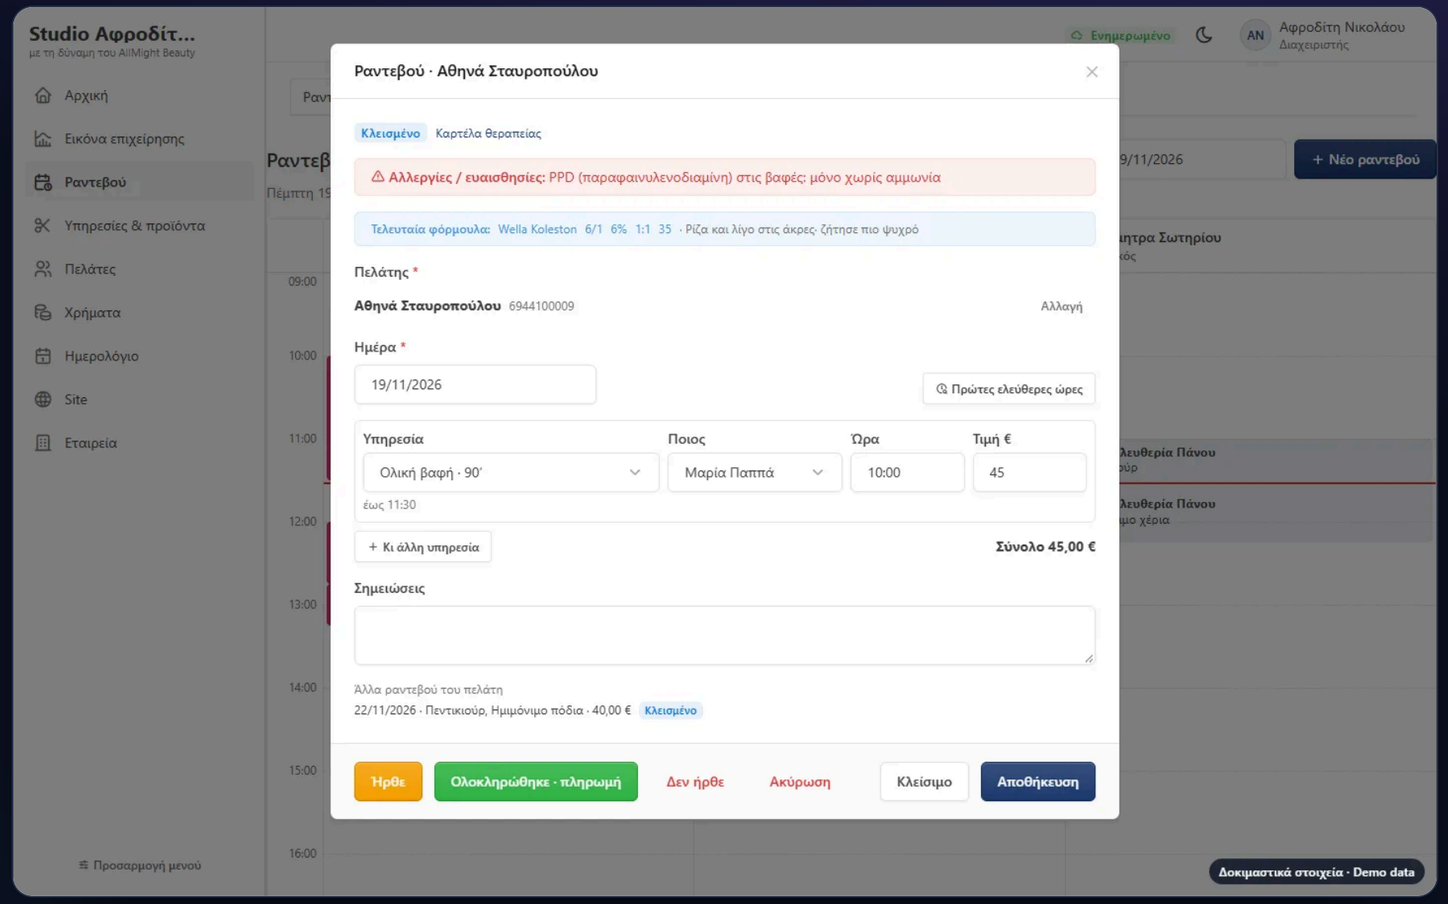

- ✓ Days off and gaps show in grey
- ✓ Their commissions in «My commissions»

# Everything about the customer, before you start

The appointment shows the customer’s allergies and sensitivities in red, the last colour formula and their earlier visits. «Arrived», «Done», «No show» at a tap.

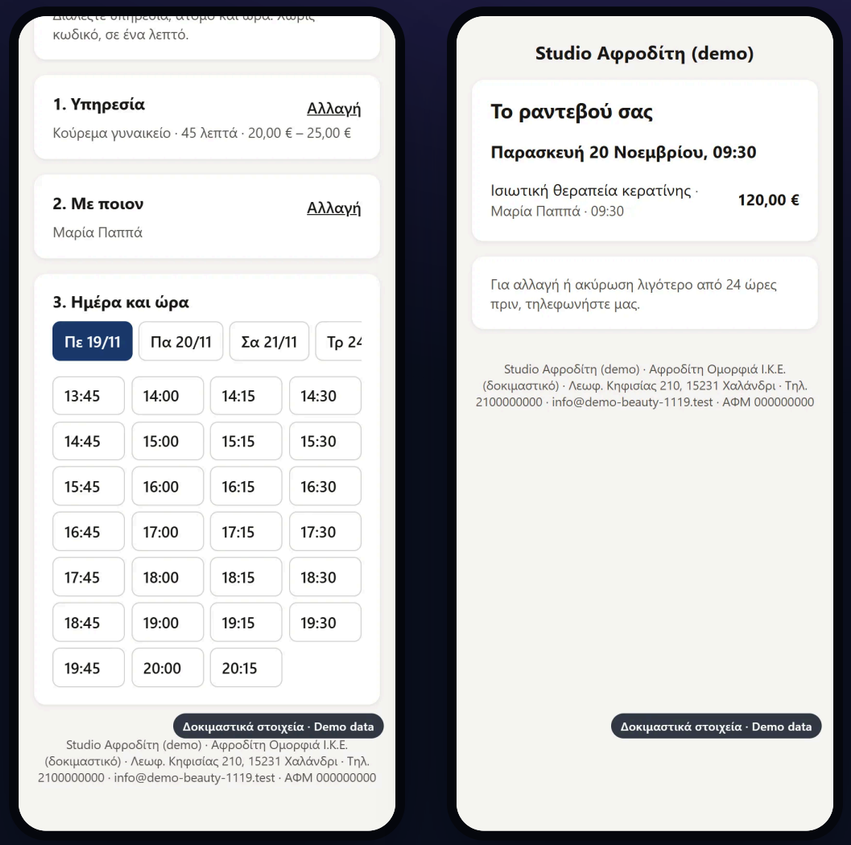

- ✓ A new customer with a name and a mobile, no forms
- ✓ Another price or duration per person (e.g. a senior stylist)
- ✓ Appointments also in the phone’s calendar

# Customers book by themselves

A page of the salon for Instagram, Facebook and Google: service, person or «whoever is free», day and time. Only free times, no password. The customer gets a link to see or cancel, and a reminder before the appointment.

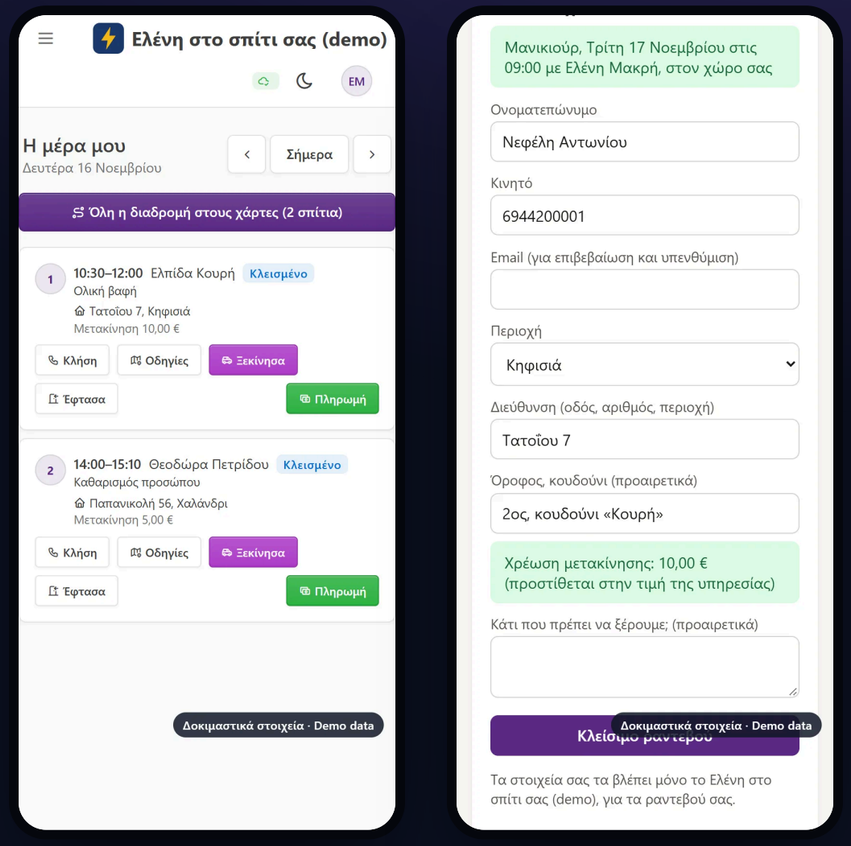

- ✓ You set how early and how many days ahead
- ✓ Cancelling by the customer up to the hours you choose
- ✓ A reminder in their app or by email, for every appointment
- ✓ The salon hears of every new booking and cancellation

# At the customer’s home

For whoever cuts, colours, does nails, beauty or massage at the customer’s home, or both in their own shop and at homes. Every appointment has an address, floor and bell. The book keeps time for the way between homes. «My day» shows the day’s homes in order and opens the whole route in the maps with one button.

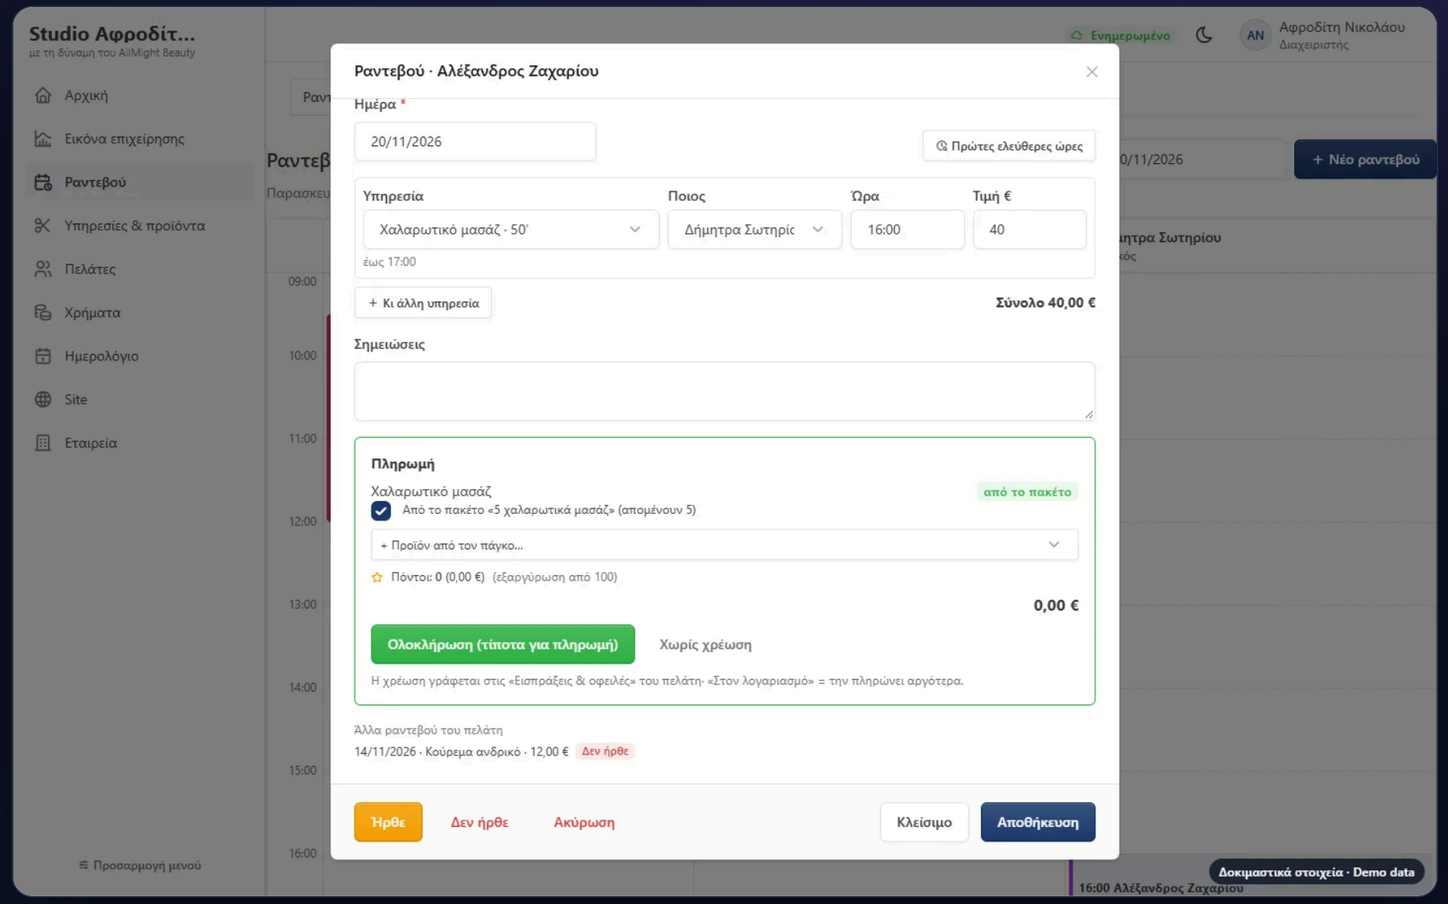

- ✓ Areas you serve, with a travel fee the same everywhere or per area
- ✓ The customer sees the fee before booking; it goes into the payment by itself
- ✓ «On my way»: the customer is told you are coming, in their app or by email
- ✓ Same address (mother and daughter): no travel time in between

# Payment with a receipt

At the end of the appointment: the service, products from the counter (shampoos, creams, polish), cash, card or IRIS, and a receipt when you issue them. Or on the customer's account, for later.

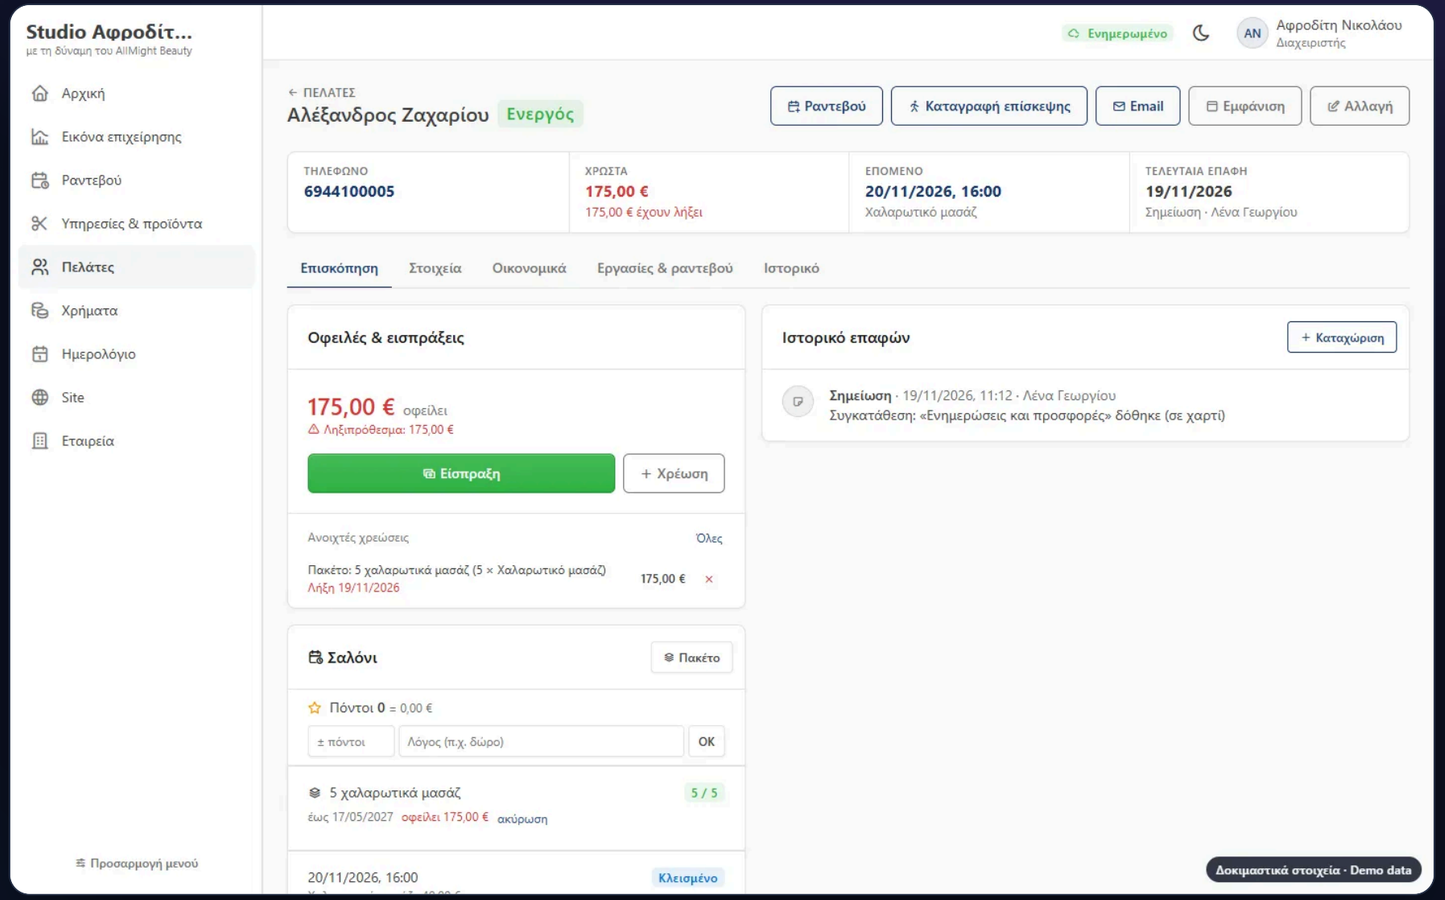

- ✓ A session out of a pack: that line costs nothing
- ✓ Points as a discount, shown on the receipt too
- ✓ The day's takings: salon, products and packs apart
- ✓ Product stock goes down by itself

# Packs and points

Packs such as «6 laser sessions» or «5 massages», with a price and an end date. Paid at once or in instalments, and each session comes out of the pack at the visit's payment. Customers collect points on every payment and spend them as a discount.

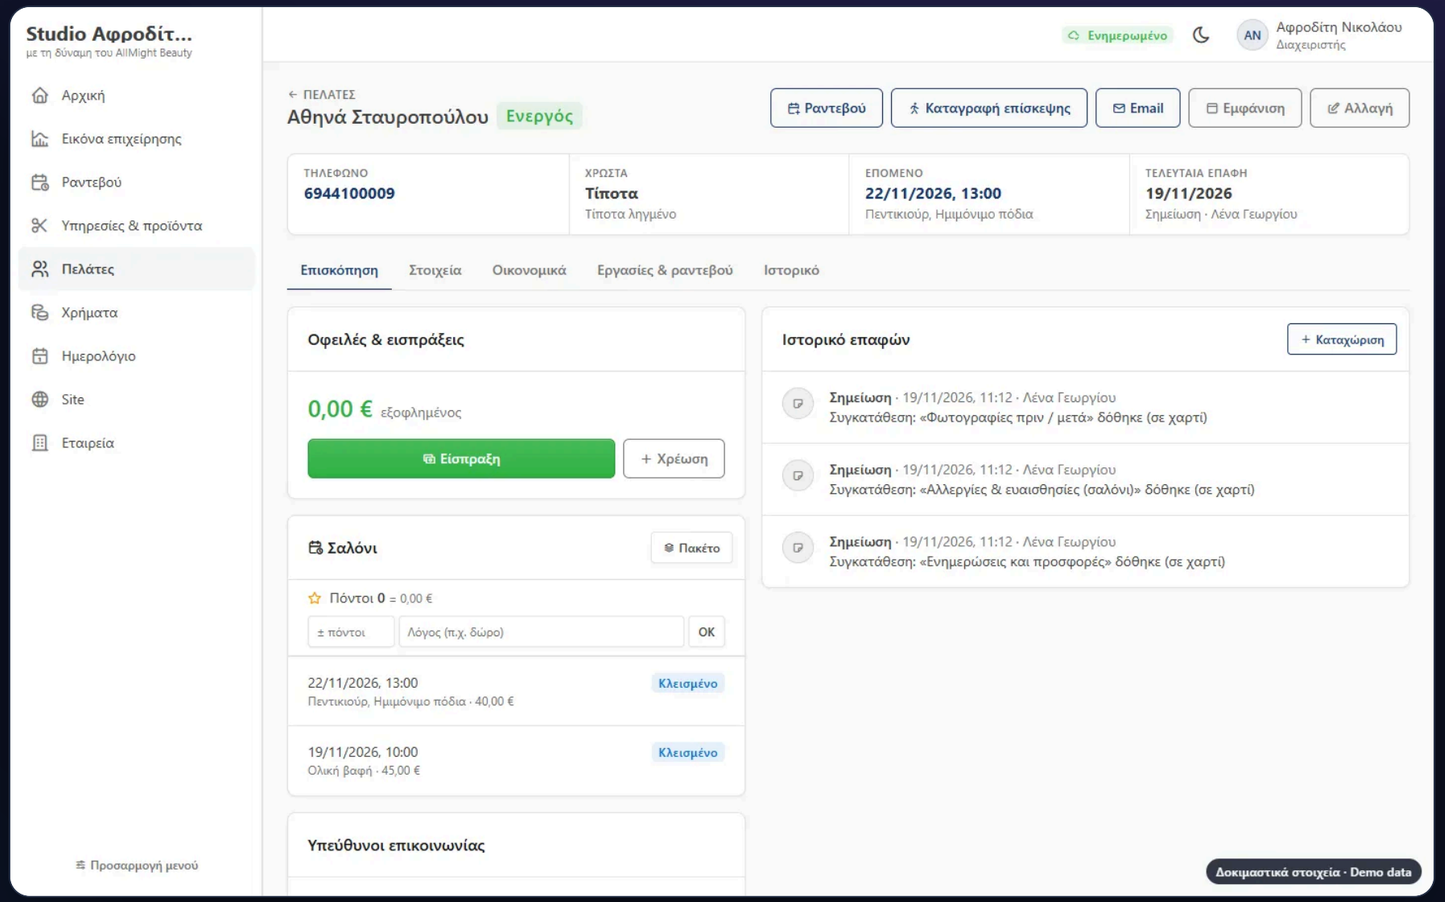

- ✓ Sessions left and what is owed, on the customer's card
- ✓ How many points per euro and what they are worth: you set it
- ✓ Points as a gift by hand, e.g. on a birthday

# Treatment card

Colour formulas (brand, shade, developer, ratio, time), notes for skin, nails and massage, hair and skin type, preferences. Allergies and sensitivities only with the customer's consent, and before / after photos with their own consent.

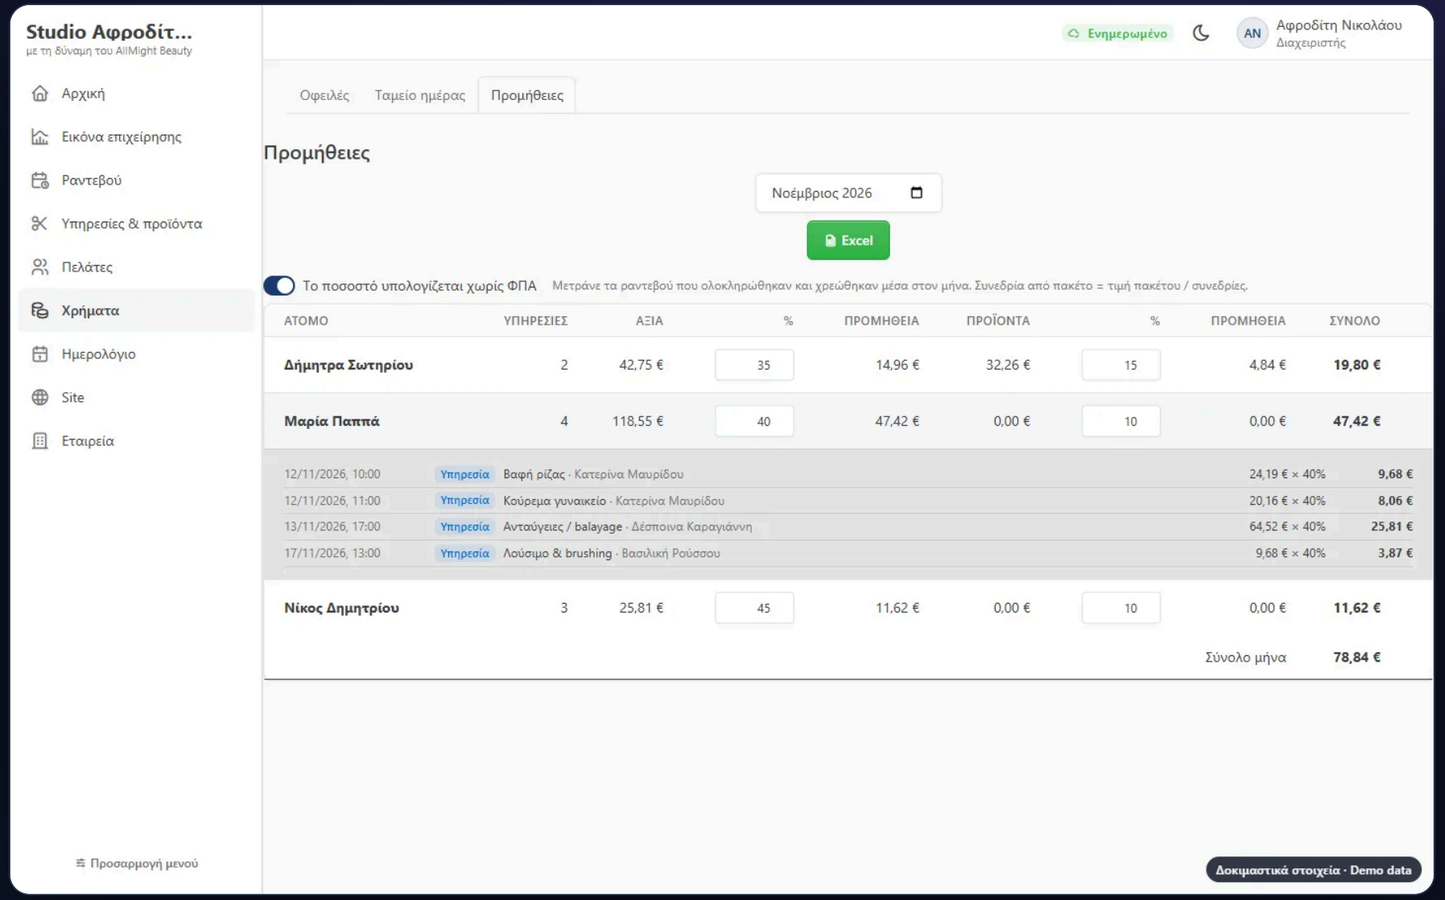

- ✓ Allergies are stored encrypted
- ✓ If the customer withdraws the consent, they are erased at once
- ✓ Photos with the phone's camera

# Staff commissions

A percentage per person on the services they did and the products they sold. The month is worked out by itself, line by line and in Excel. Each stylist sees their own.

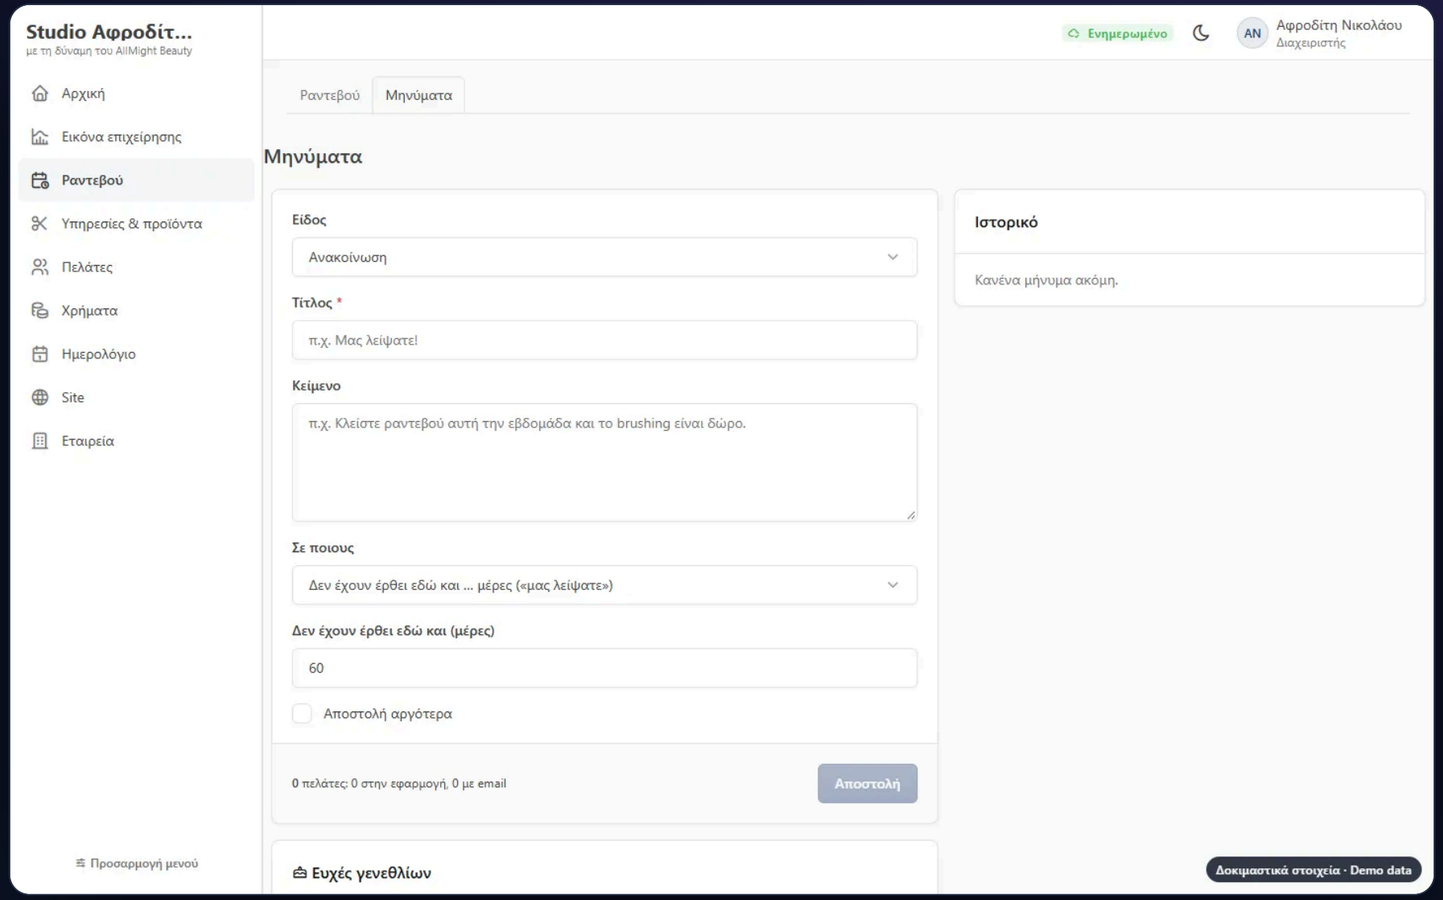

- ✓ Pack sessions at their own value
- ✓ Without or with VAT, as you choose

# Messages and birthdays

Announcements and offers in the customer's app or by email: to everyone, to those who have not come back for a while («we miss you»), to those who had a colour, to those with a pack. Birthday wishes in the morning, with a gift of points if you like.

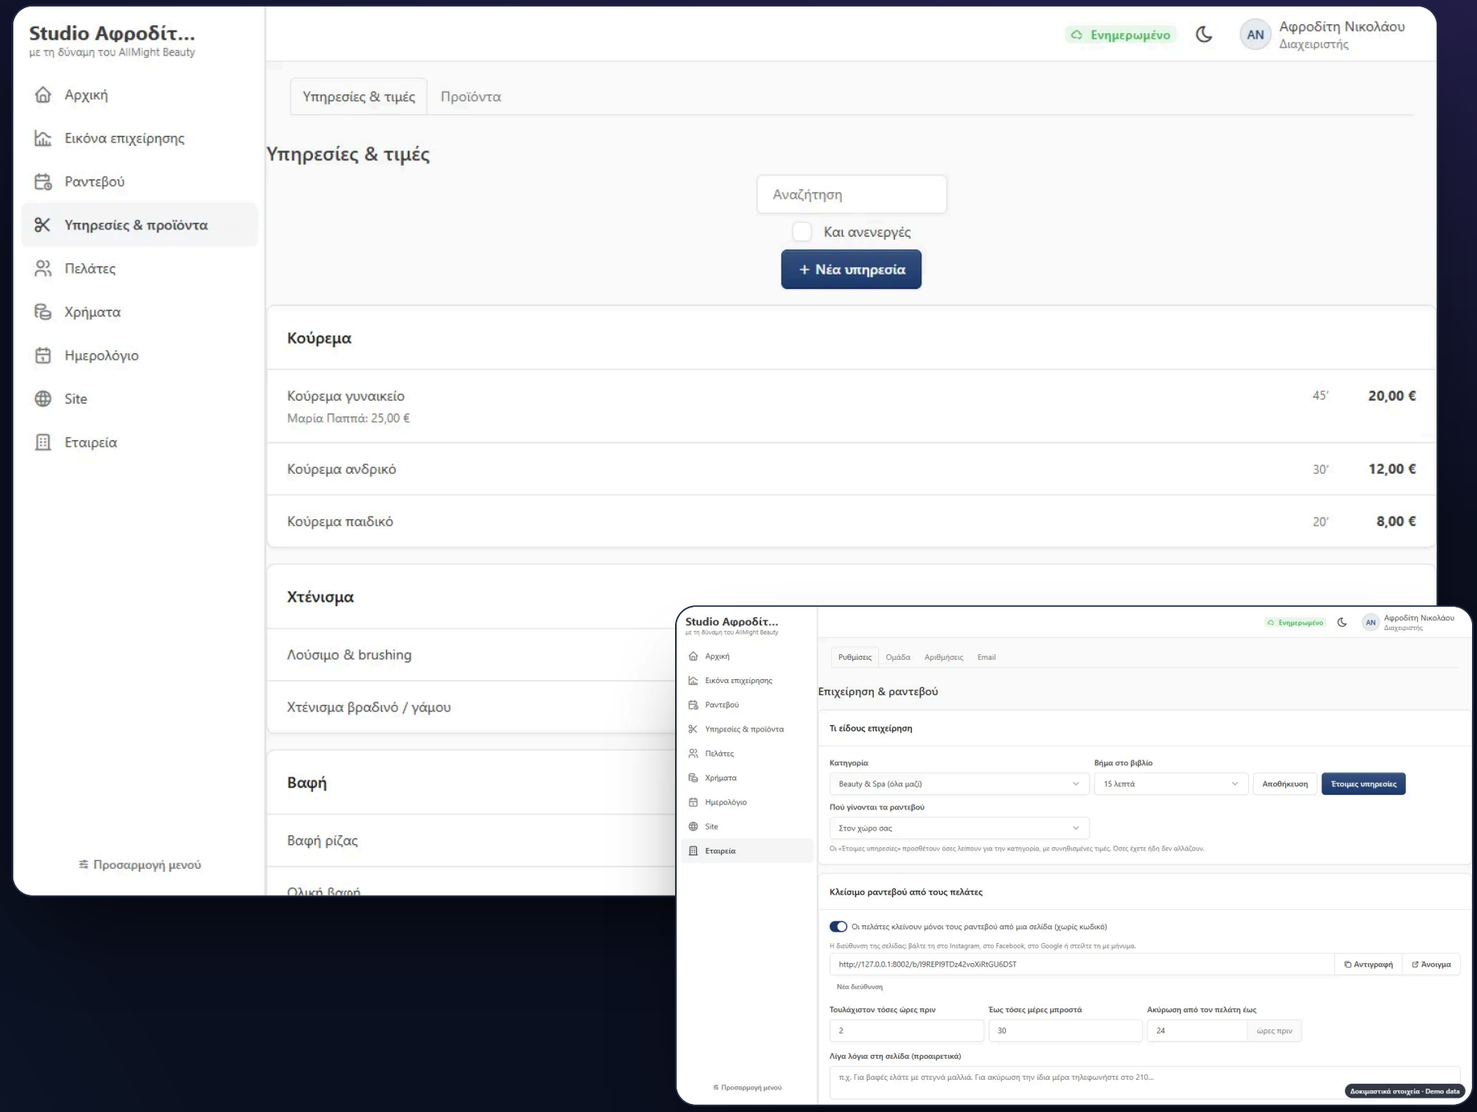

- ✓ Offers only reach those who accept them
- ✓ Before sending you see how many it will reach
- ✓ Send now or later

# Services, prices and settings

Ready-made services with usual prices for a hair salon, beauty, nails, spa or all of them, which you change as you like. Who takes appointments, each person’s hours with a break, days off, places, and the rules for online booking.

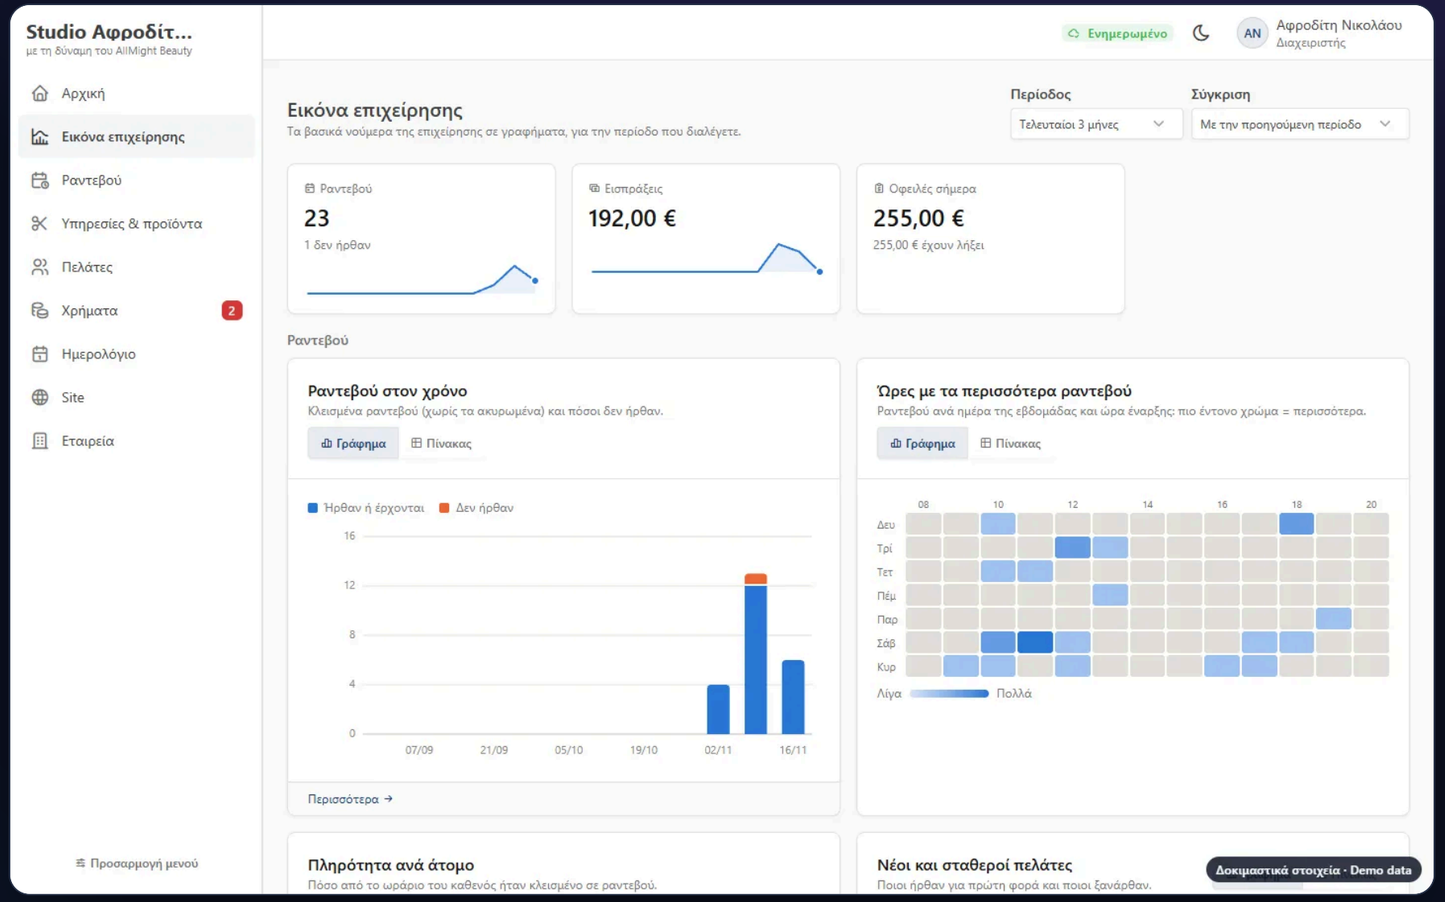

- ✓ Duration, tidy-up time and price with VAT per service
- ✓ Who does what, with their own price or duration
- ✓ Roles: front desk, stylist / therapist, admin

# The business at a glance

Appointments over time and no-shows, how full each person's hours were, the busiest hours, new and returning customers, services that bring money.

- ✓ For the owner and the front desk
- ✓ Money in by month and what it paid for, money owed by how late
- ✓ Every chart also as a table, compared with the period before or last year

# And also

### Roles

Front desk, stylist / therapist and admin each see what they need.

### Part of the AllMight suite

Customers, charges, payments and calendar from one shared system. E-invoicing (myDATA) is optional, +€15 a month: without it, the receipt comes from your cash register and AllMight keeps the payment and the day’s takings.

### Personal data

Consents for allergies, photos and news, and erasing on withdrawal.

### Nothing to install

It opens in the browser on a computer, tablet or phone.

# Let’s see it with your own salon

A presentation, your own services and prices, and a trial period.

- ✓ Monthly subscription
- ✓ Works on computer, tablet and phone
- ✓ Nothing to install, it opens in the browser
