FOR CLEANING COMPANIES, PEST CONTROL, BUILDING MAINTENANCE AND ANY WORK DONE AT THE CUSTOMER'S PLACE

AllMight Clean

Cleaning companies and field crews

by computerization4u

For the whole company

The office books the job, the crew sees it on the phone, and the customer gets a work sheet with photos and a signature. Regular jobs fill the schedule by themselves, materials leave the warehouse and the charge goes to the customer.

The office

The crews' week, new jobs, quotes, charges, work sheets.

The crew

«My day» on the phone: directions, checklist, photos, signature.

The customer

Sees the coming and the last visits on their own link.

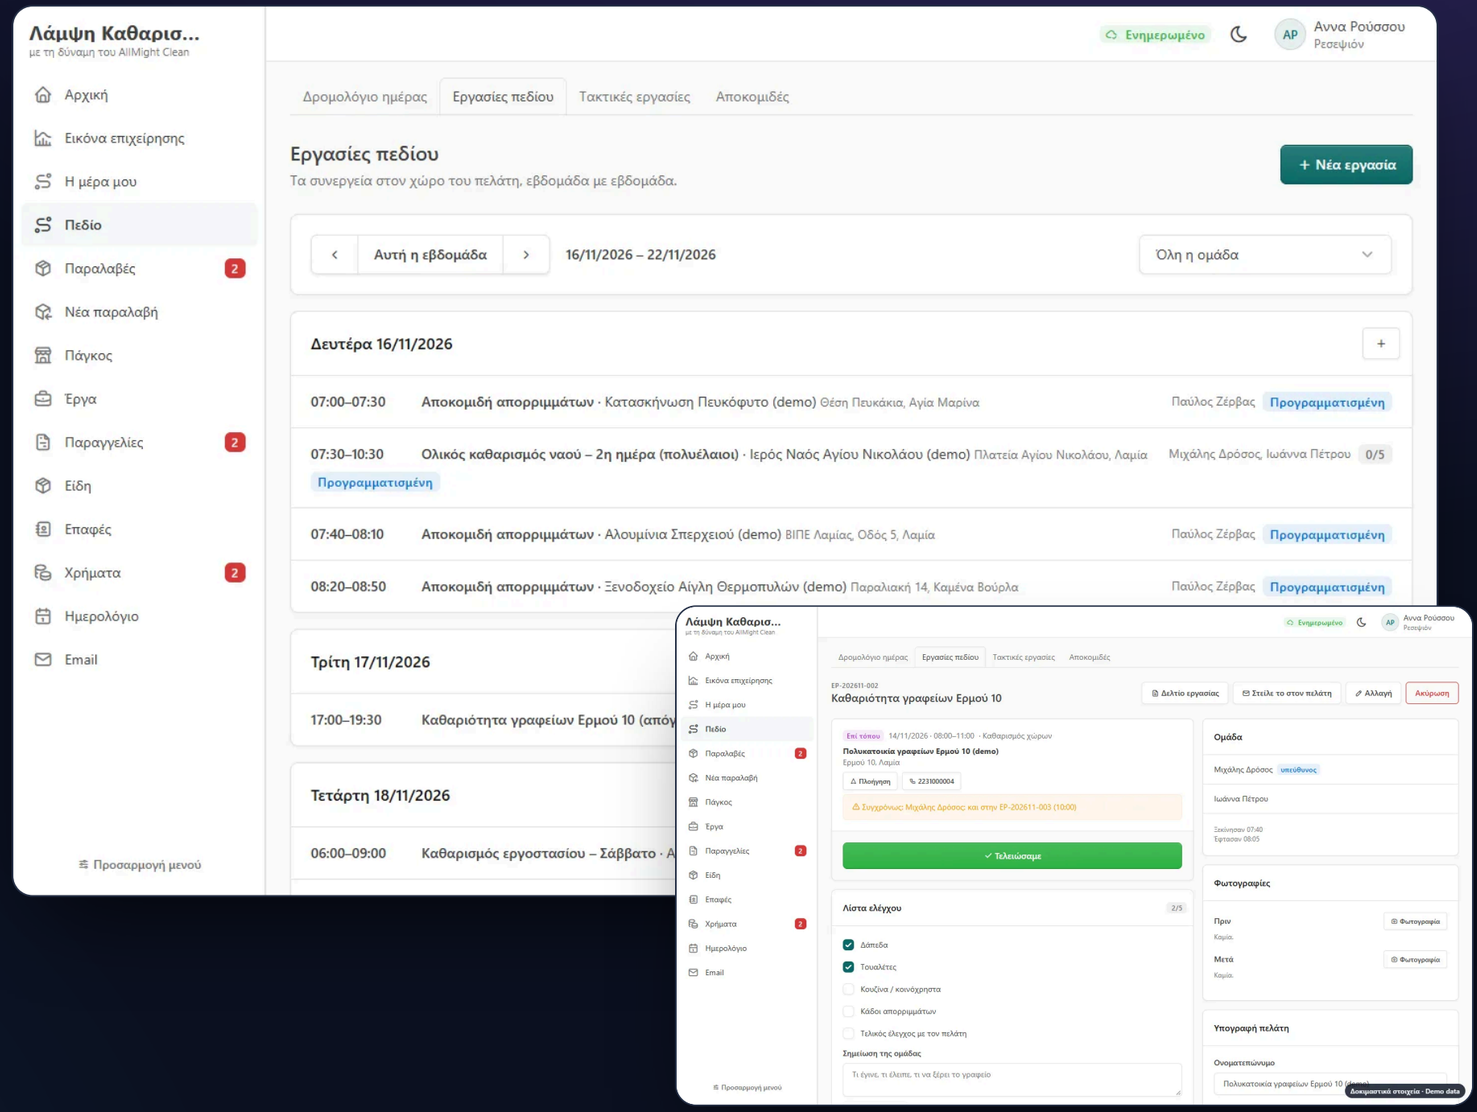

The owner

What was done, what was charged, hours and pay per person.

The crews' schedule

Each job has a customer, a place, a day and a time, a crew with a lead, and the vehicles or lifting platforms it needs. It goes into everyone's calendar. If someone or a machine is already booked at the same time, the program tells you.

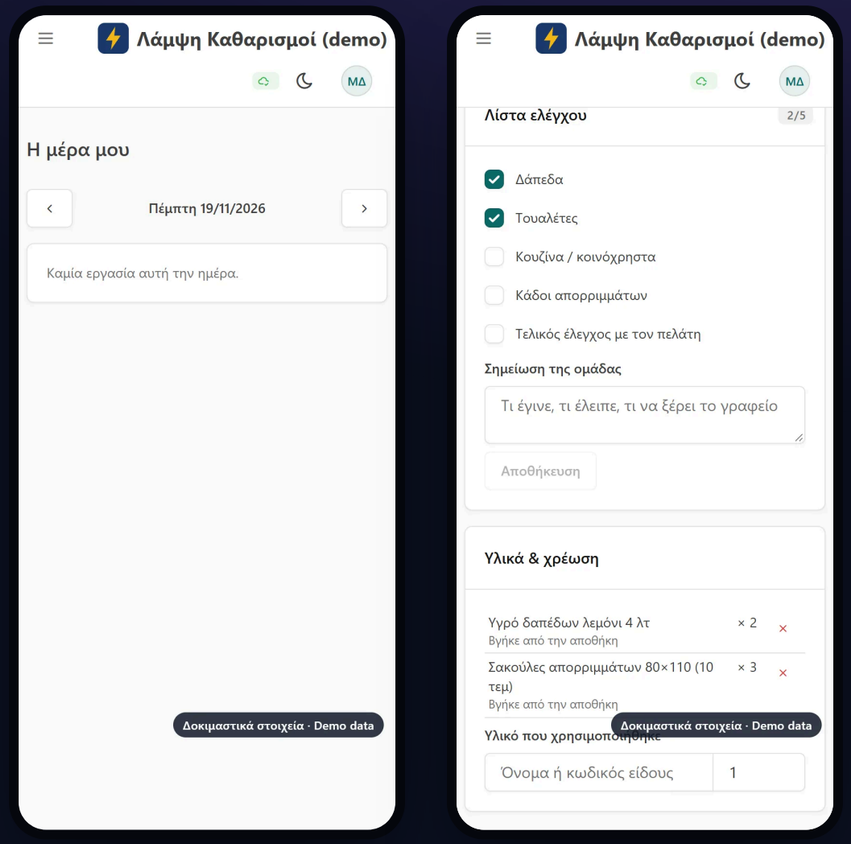

- ✓ Kinds of work with a ready checklist and length
- ✓ The week by day, and by person
- ✓ From a signed quote to a project in one click

The crew on the phone, even without signal

The crew sees the day's jobs in order, gets directions and calls the customer in one tap. On site: «Arrived», checklist, before and after photos, materials, the customer's signature, «Done».

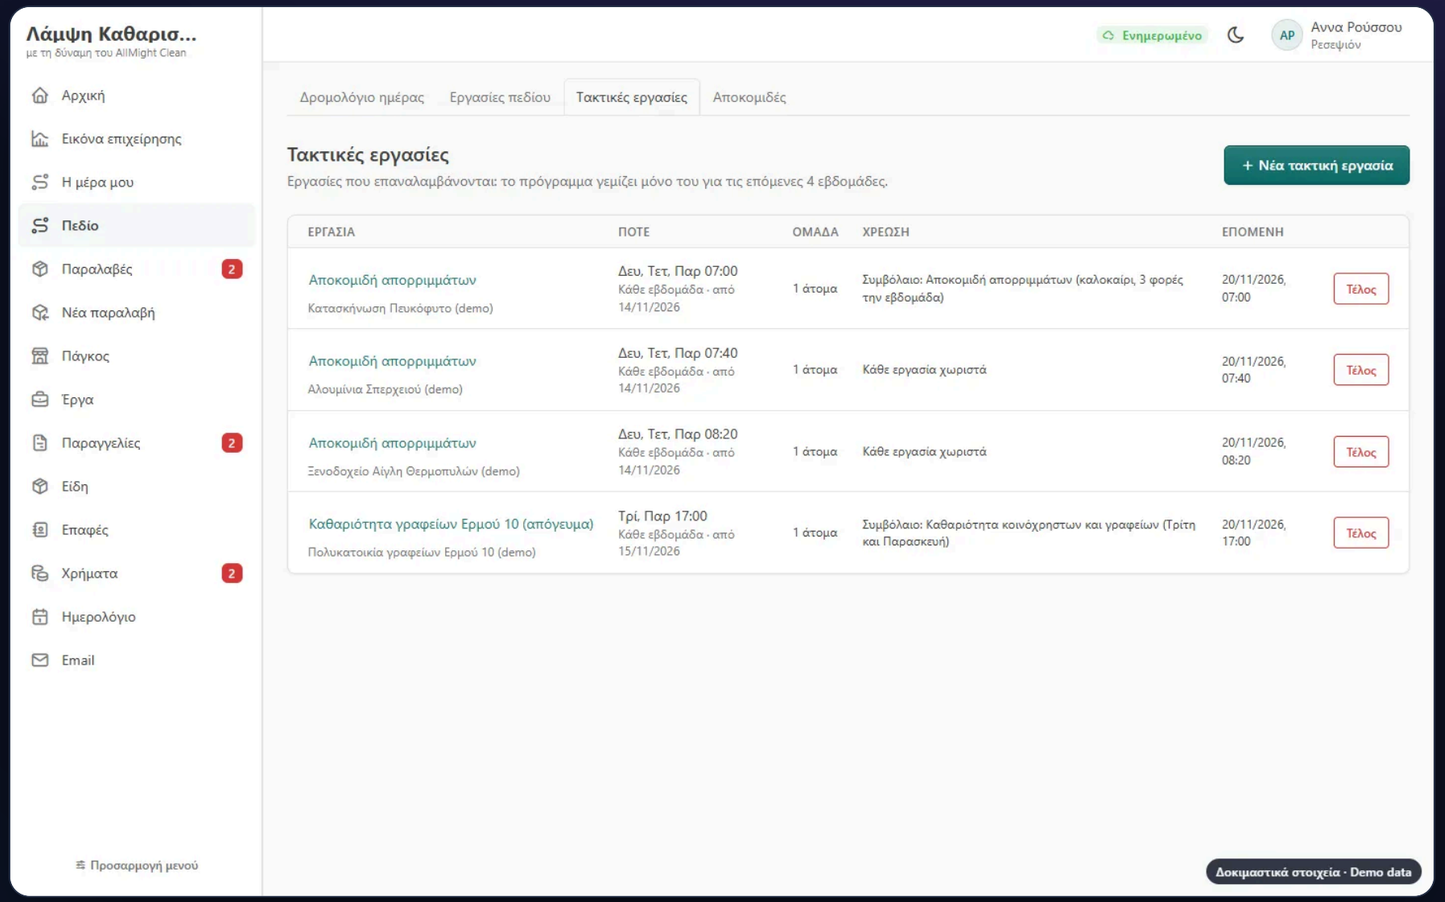

- ✓ Works without signal and sends later with the right time
- ✓ Photos are shrunk on the phone
- ✓ The crew sees no prices

Regular jobs from contracts

«Offices every Tuesday and Friday at 17:00». You set it once and the schedule fills itself for the coming weeks. Change it and the coming jobs nobody touched change with it.

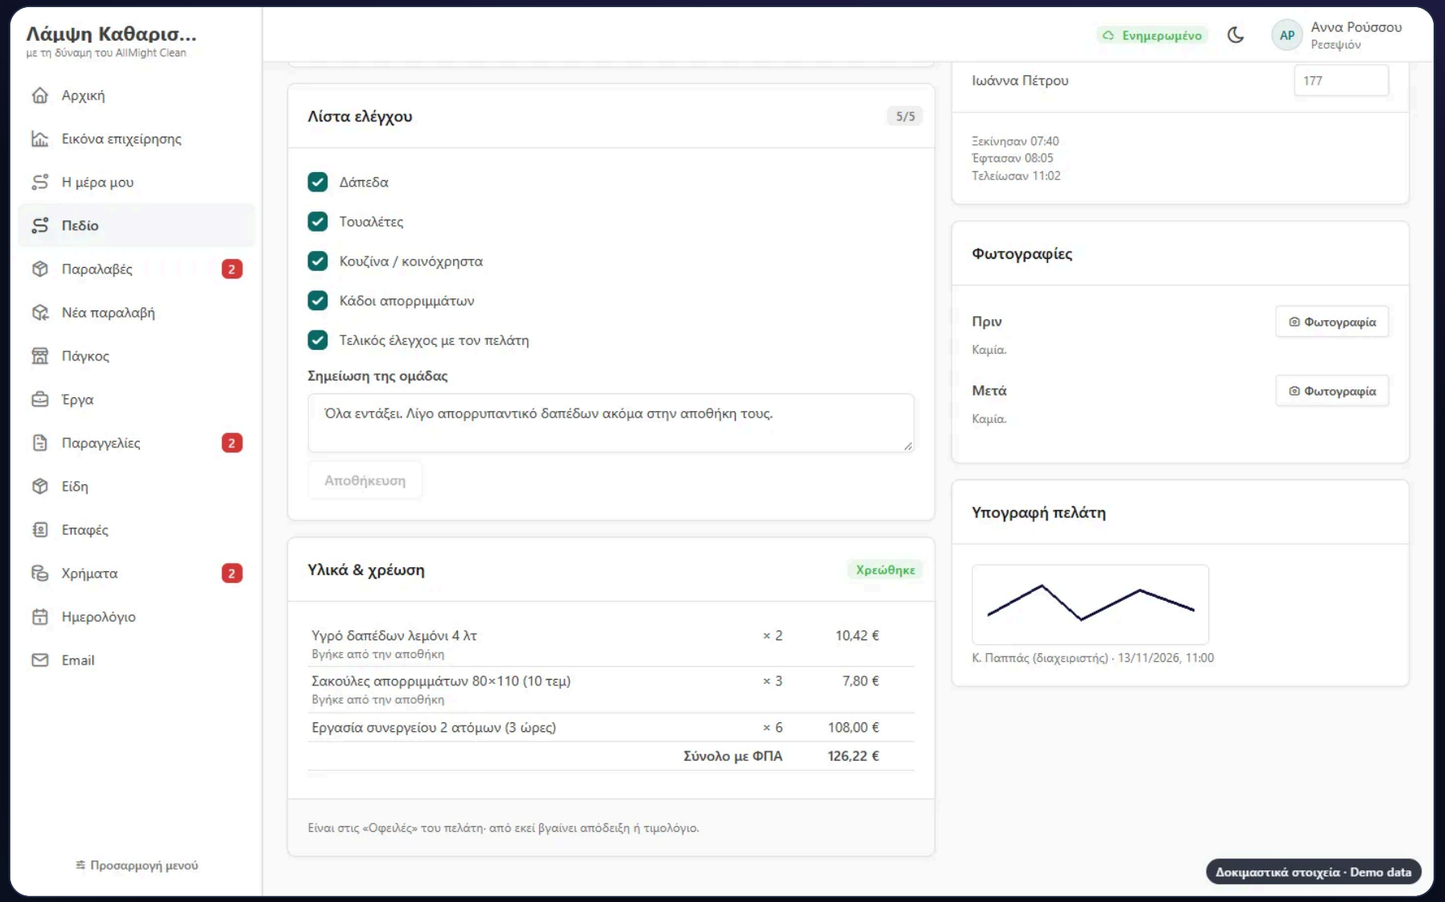

- ✓ Every week, every 2 or every 4
- ✓ Charged by the customer's monthly contract, or per job
- ✓ Jobs changed by hand stay as they are

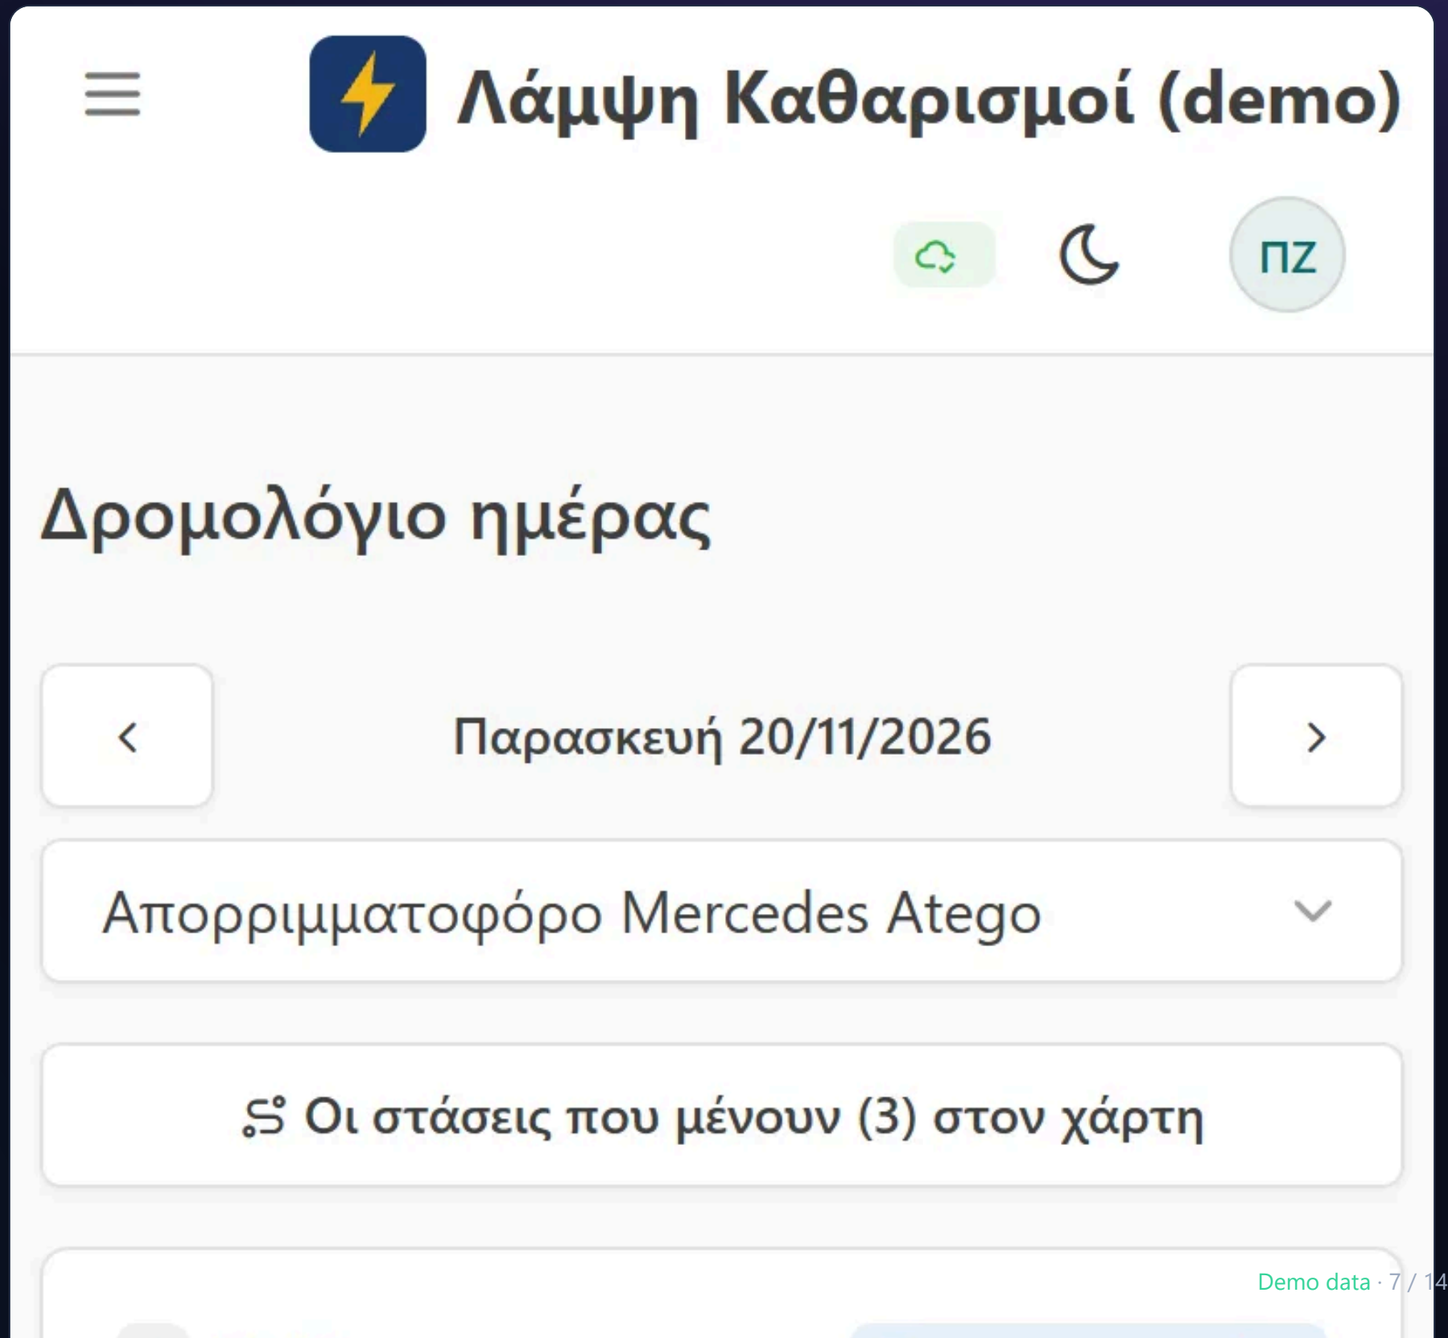

Materials, charge and work sheet

The materials the crew used leave the warehouse. The office adds the labour and charges the customer; a receipt or an invoice follows as for any charge. The work sheet PDF, with photos and the signature, goes by email only when you press the button.

- ✓ Prices from your items, with VAT
- ✓ Charged once; only the payments manager cancels it
- ✓ The work sheet carries your logo and details

Shop and wholesale with one stock

A counter with quick buttons, cash, card or IRIS. Orders from hotels and businesses. A warehouse with lots and expiry dates for chemicals. Counter, wholesale and crews take from the same stock, first what expires first.

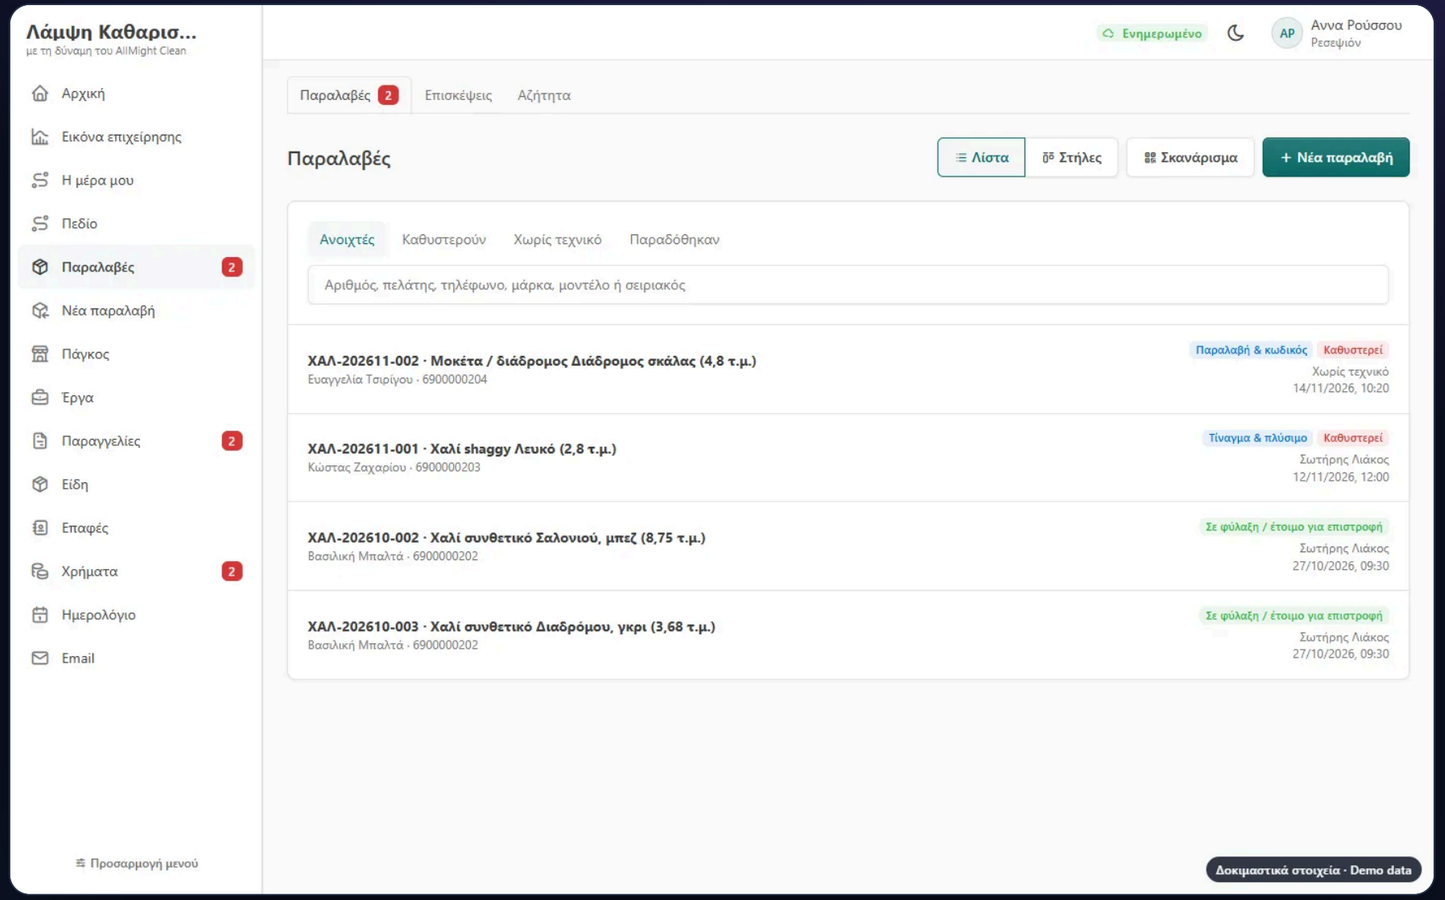

- ✓ Charge to the customer's account from the counter
- ✓ Alerts for lots about to expire
- ✓ Daily cash-up

Carpet cleaning

Pick-up from the home: all the carpets together, with their size and a price per m², one signature and a sticker with a code on each. Washing, drying, storage, return with a signature.

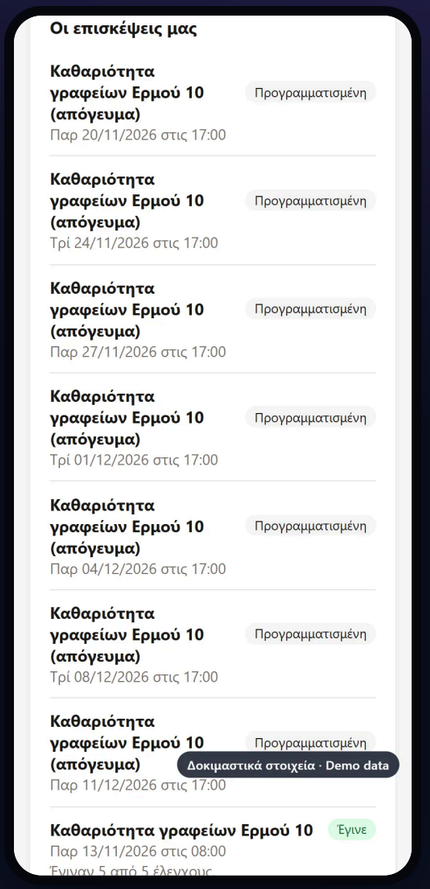

- ✓ Free storage until the date you set
- ✓ The customer follows the carpet on their phone
- ✓ All returned together in one trip

The customer sees the visits

Each customer has their own page, without a password. They see the coming visits, the last ones with what was done and photos, what they owe and how to pay, and they can write to you.

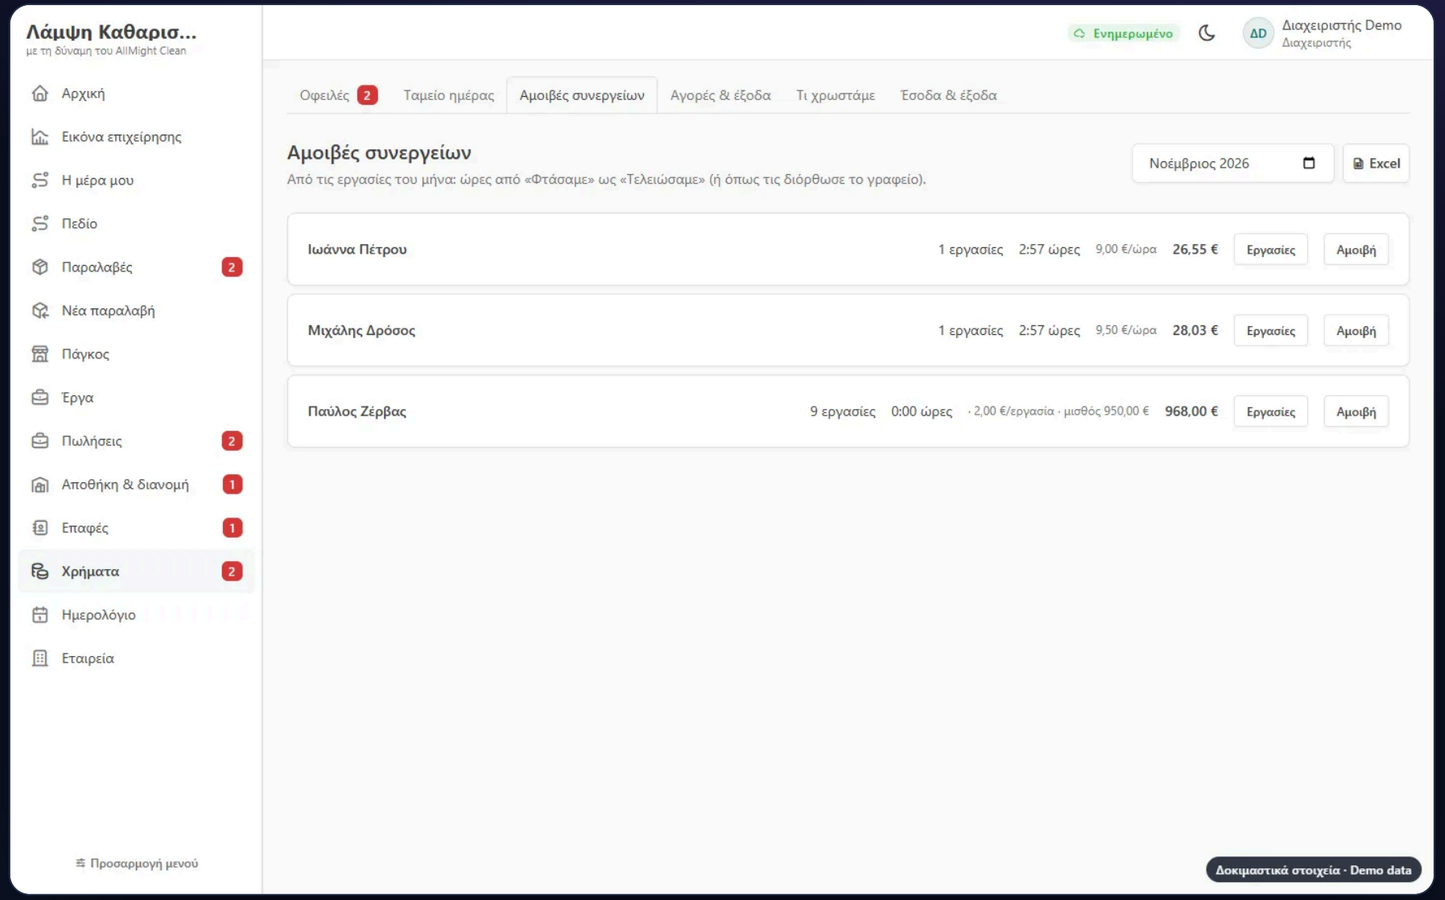

- ✓ You choose what each customer sees
- ✓ Photos open through links that expire

Hours and pay

Each person's hours run from «Arrived» to «Done»; the office corrects them when needed. Pay per hour, per job or a salary, per month and in Excel.

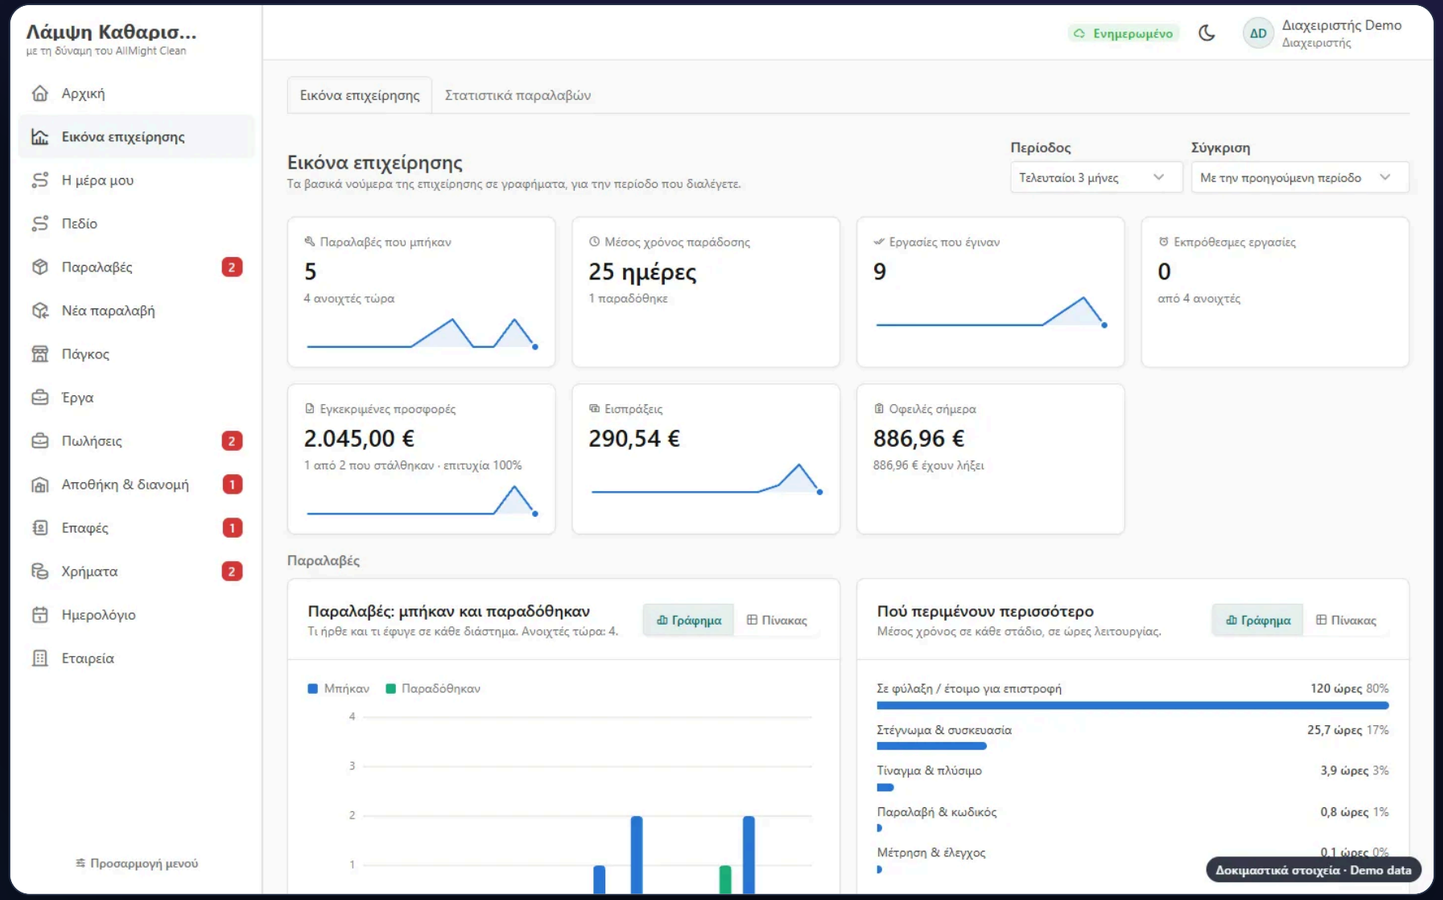

- ✓ Each person sees only their own
- ✓ A list of jobs per person

The business at a glance

Field jobs done, not done and coming, how many each person did and by kind, and items received and handed back.

- ✓ Average days to hand items back
- ✓ Money in by month and what it paid for, money owed by how late
- ✓ Every chart also as a table, compared with the period before or last year

And also

Roles

Office, crew and administrator each see what they need.

With the AllMight suite

Customers, charges and payments from one system, and e-invoicing as an add-on.

Fleet

Vehicles and lifting platforms with inspections, insurance, service and hours (in Clean Pro).

Without signal

The crew's phone keeps the week's jobs.

Photos

Before and after, on every job.

Nothing to install

It opens in the browser on computer, tablet or phone.

Let's look at it with your own jobs

A presentation, your own kinds of work and contracts, and a trial period.

- ✓ Monthly subscription
- ✓ Works on computer, tablet and phone
- ✓ Nothing to install, it opens in the browser
