FOR THE SECRETARY, THE TREASURER AND THE BOARD

# AllMight Clubs

Clubs and associations

by computerization4u

# For the people who keep a club going

The members’ book, dues, the assembly and the accounts in one place. Members carry their card on the phone, and the board stops hunting for papers every spring.

### The secretary

A register with history, membership requests, invitations, minutes and documents.

### The treasurer

Dues with receipts, who owes, expenses and sponsors, the yearly accounts at a click.

### The board

Sees where the club stands, what is pending and what was decided.

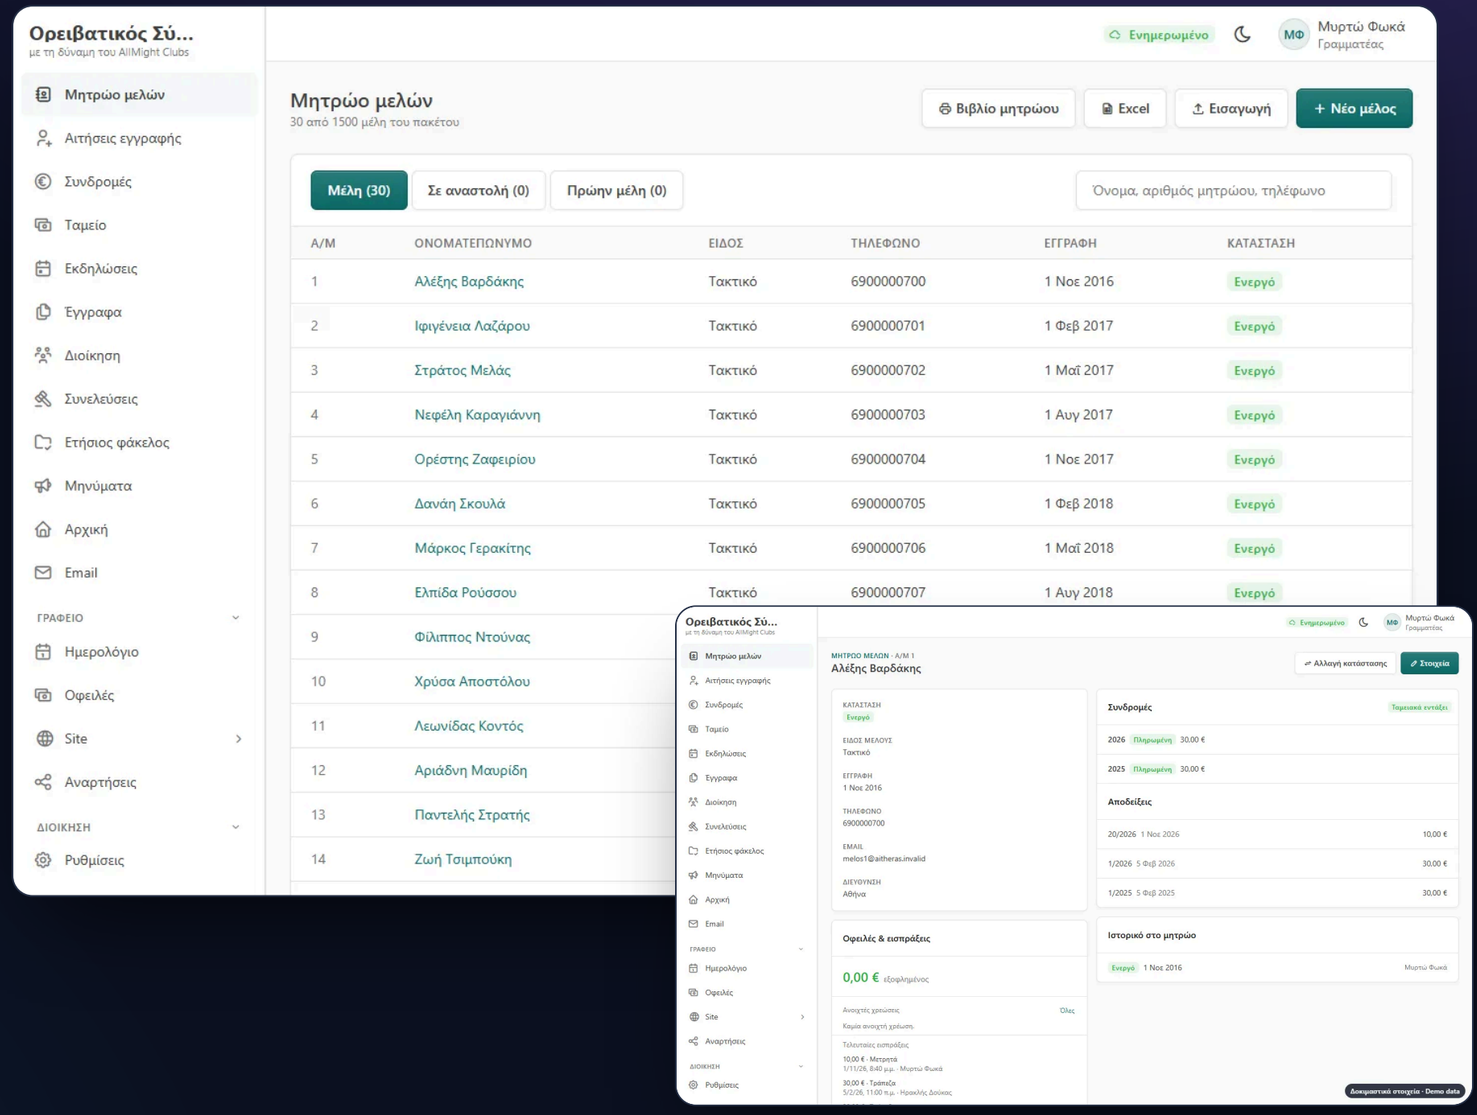

### The member

Membership card, dues, events and documents on the phone.

# The members’ book, always up to date

Every member with a register number, a kind and a status. Each change keeps the decision behind it, and the book prints or goes to Excel whenever it is asked for.

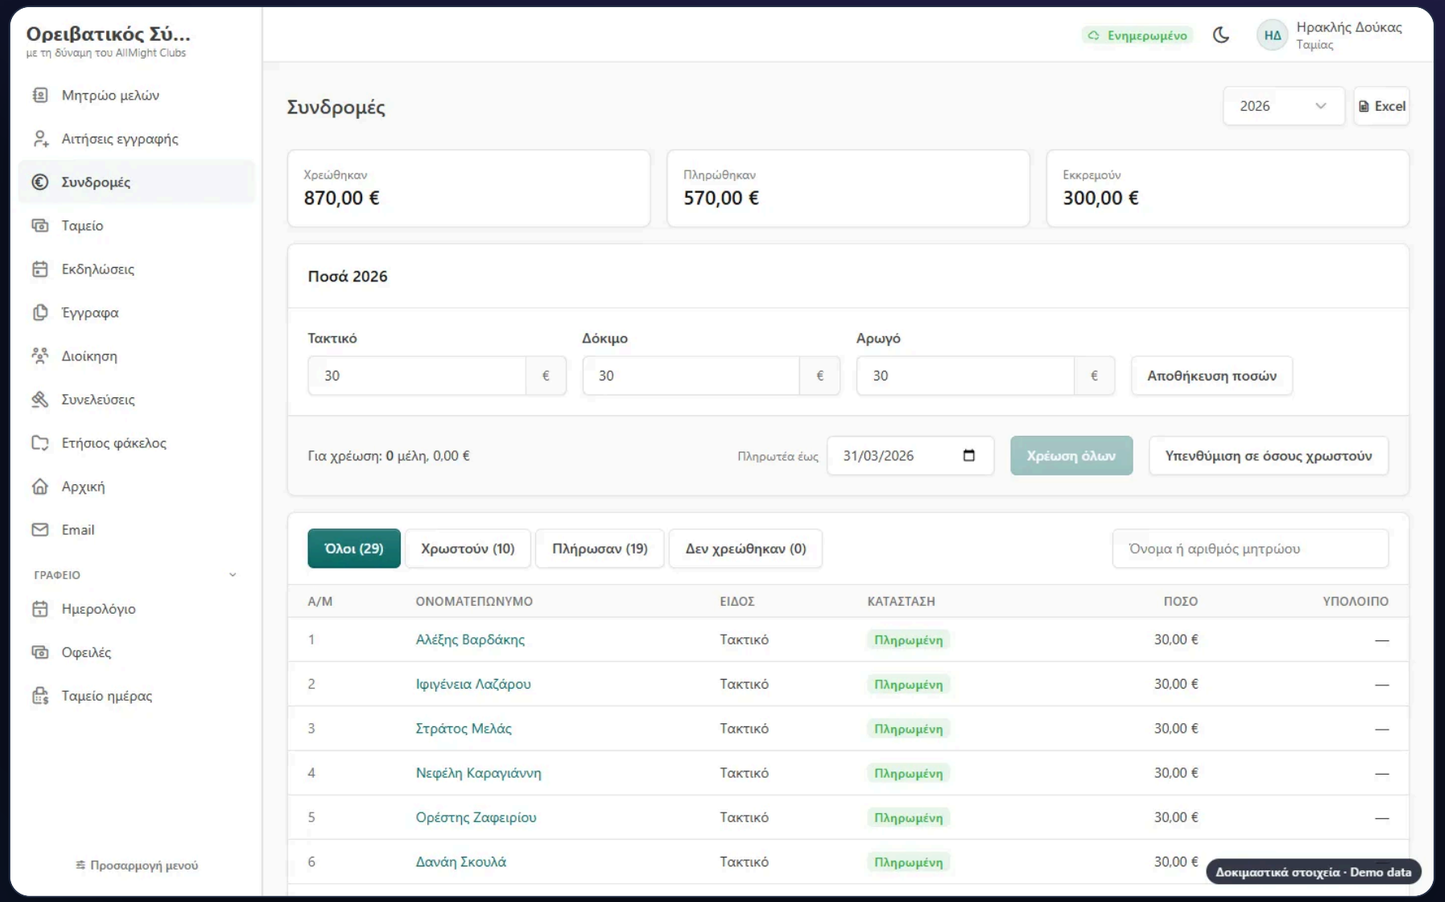

- ✓ Regular, honorary, probationary and whatever your statute defines
- ✓ Excel import with a preview
- ✓ A former member stays in the book, and the number is never reused
- ✓ Requests from your site, approved by the board

# Dues without notebooks

Set the amount per kind of member and charge everyone at once. Each payment makes a receipt, the list of who owes is always ready, and a reminder leaves at a click.

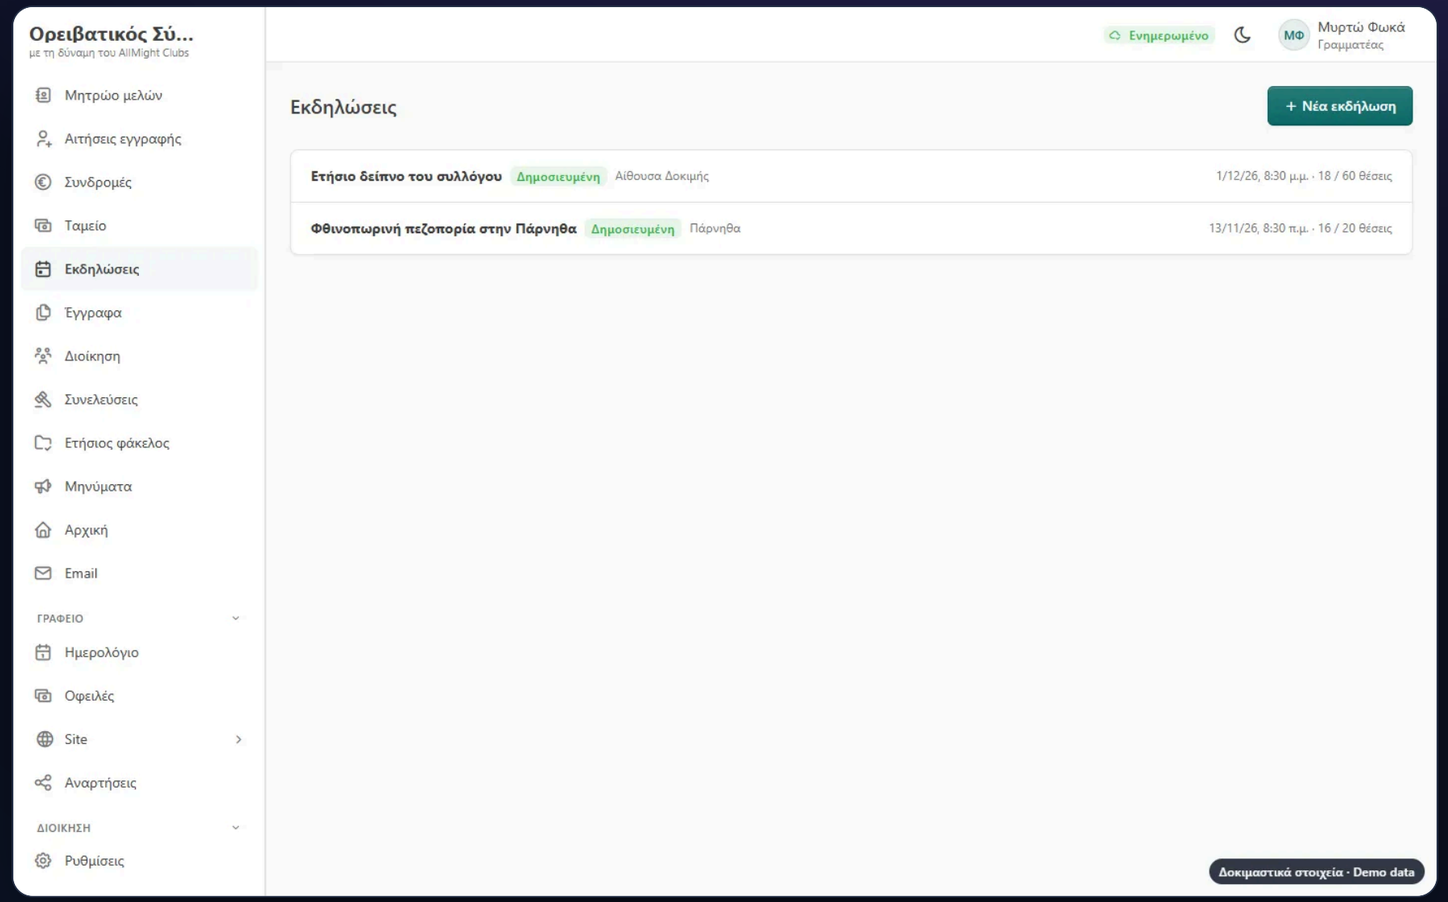

- ✓ Exemptions for members who do not pay
- ✓ Who is in good standing, year by year
- ✓ Members see what they owe on their phone

# Events with sign-ups

Post an event with places and prices for members and guests. Members sign up in the app, a full event gets a waiting list, and the payment goes on their card.

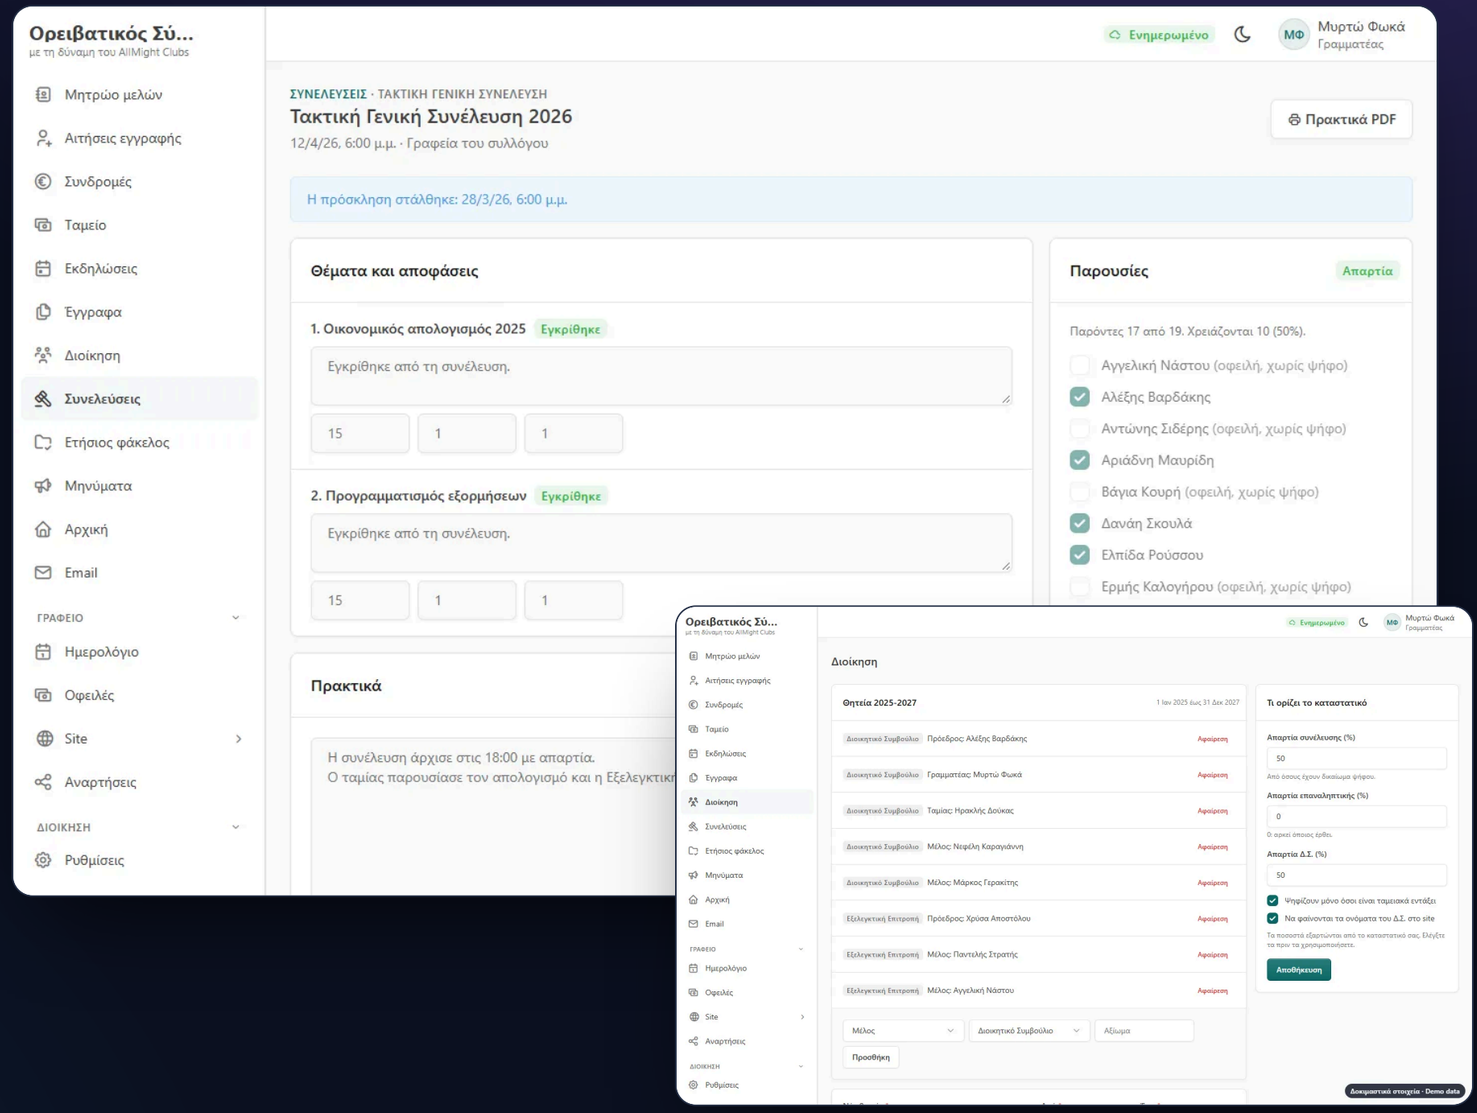

- ✓ A waiting list that moves by itself
- ✓ Guests without an account
- ✓ Shown on the club’s site

# Board and assemblies, with minutes

Write the subjects and send the invitation at a click. At the assembly the program counts the quorum and the votes, warns about a subject outside the invitation, and the minutes are signed with a PIN and locked.

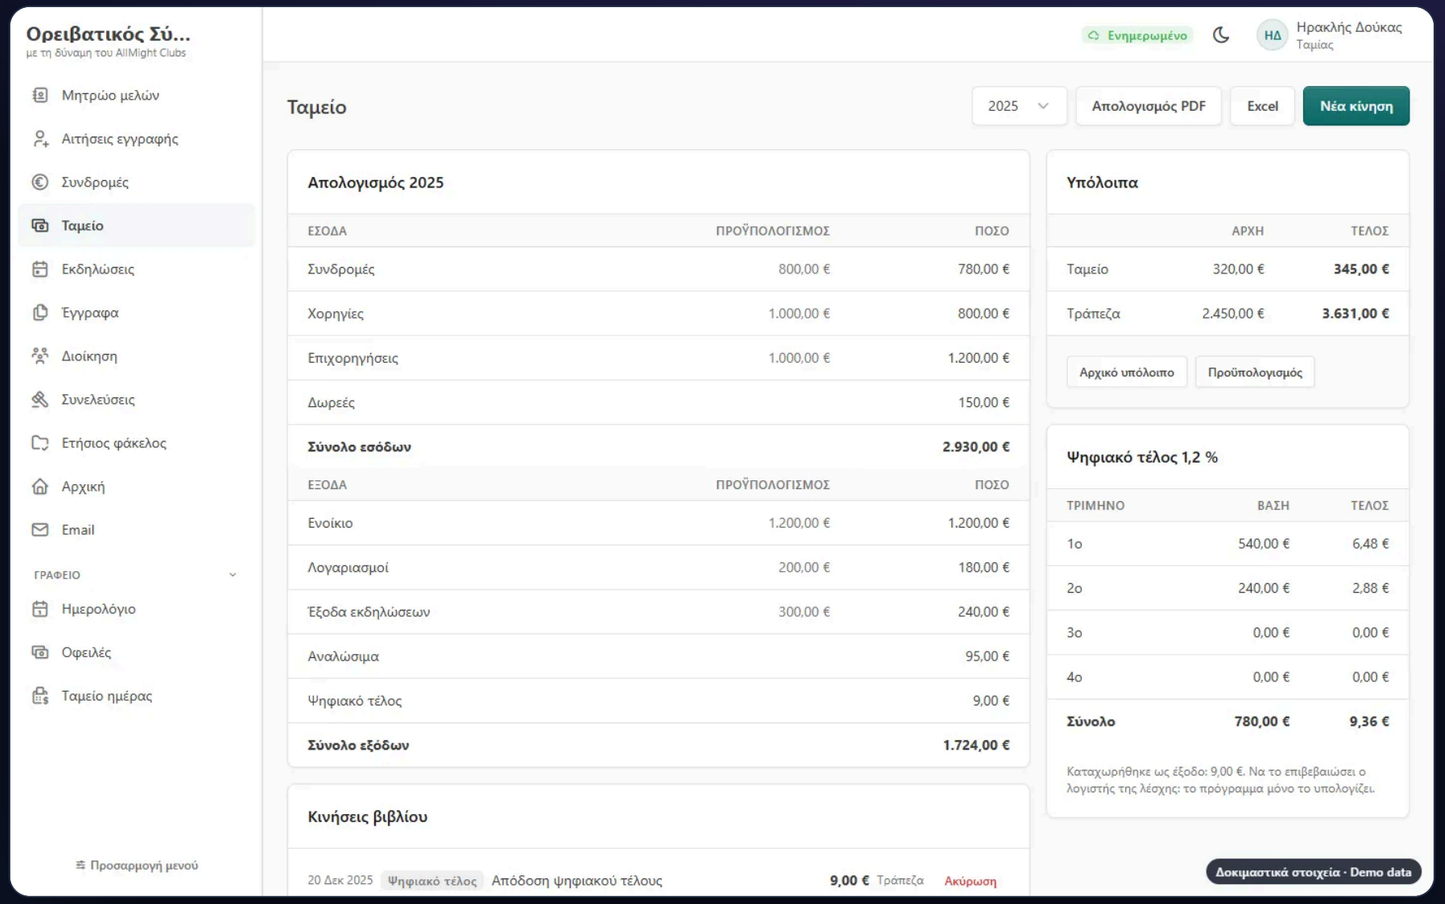

- ✓ Quorum percentages follow your statute
- ✓ A second call with the same subjects
- ✓ Terms, board, audit and election committees
- ✓ Minutes go to the documents of members or the board

# Treasury and accounts

Dues come in by themselves. You write expenses, sponsors and grants, with the receipt beside them. The accounts come out ready, next to the budget, with balances for cash and bank.

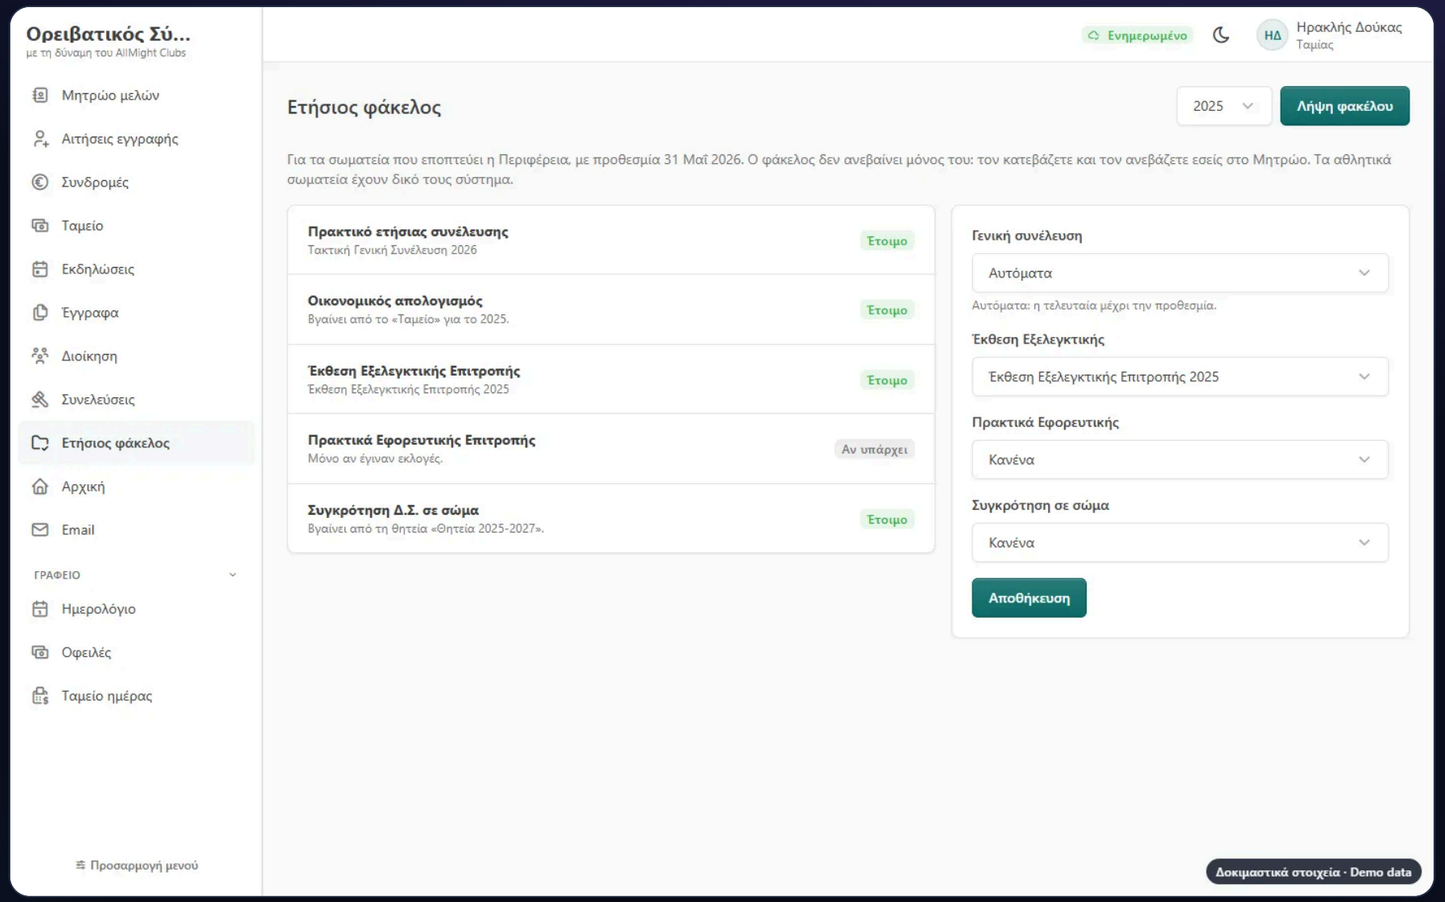

- ✓ PDF for the assembly, Excel for the accountant
- ✓ What is written does not change: a mistake is cancelled with a reason
- ✓ Greek digital fee per quarter, for your accountant to check

# The yearly file in one download

For Greek associations under the Region's register: the program shows what is ready and what is missing, and makes one file with minutes, accounts, the audit report and the board's formation. You download it and upload it yourself.

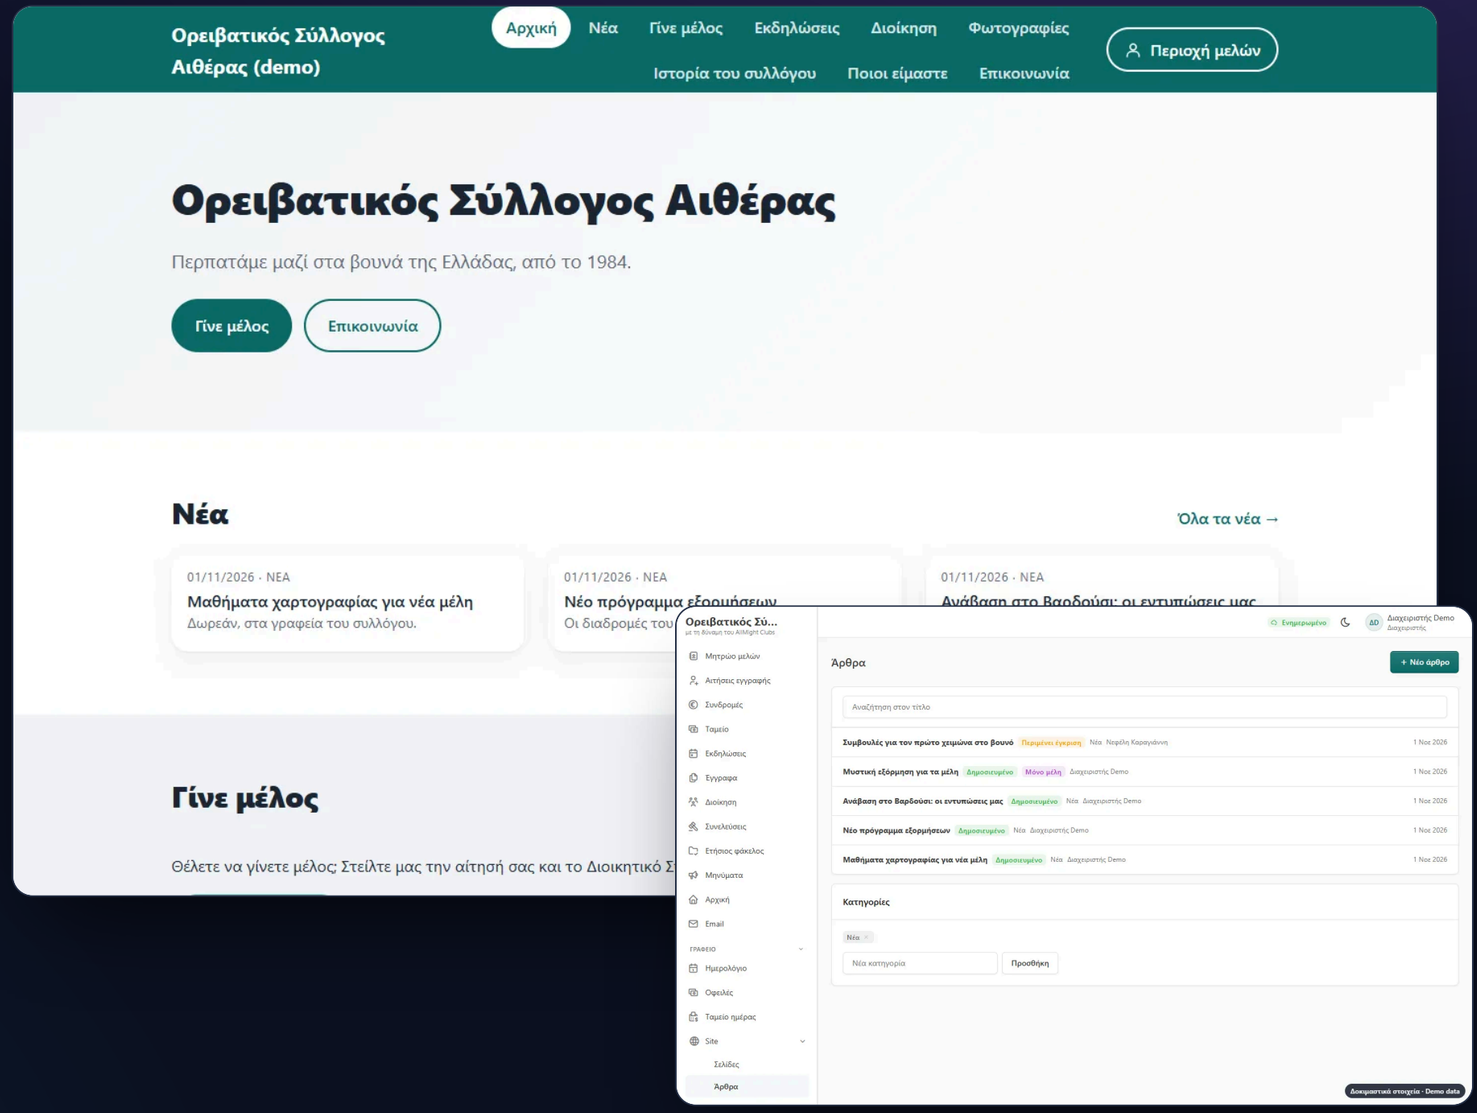

- ✓ A list of what is missing
- ✓ The deadline on your calendar

# A website with articles, in the same program

The club gets a website with its events, a membership form and articles. Writers write and a person in charge approves before anything goes public. If you already have a site, it can take members and dues from here with Clubs Pro.

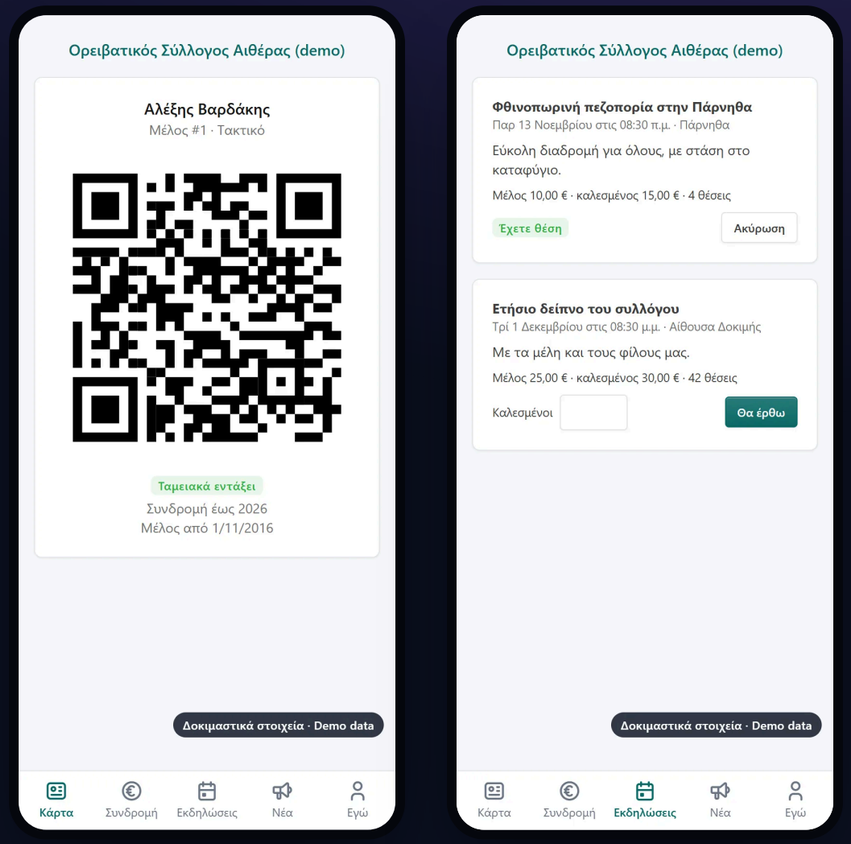

- ✓ Articles approved before they go out
- ✓ Publish later, on the date you choose
- ✓ Photo albums, made smaller by themselves on upload
- ✓ Free pages, such as «History» or «Statute»
- ✓ The board shows on the site only if you want

# The club on the member’s phone

Members sign in with a code sent to their email, with no password to remember. They see their card, dues, events, news and documents, and sign up for an event with one tap.

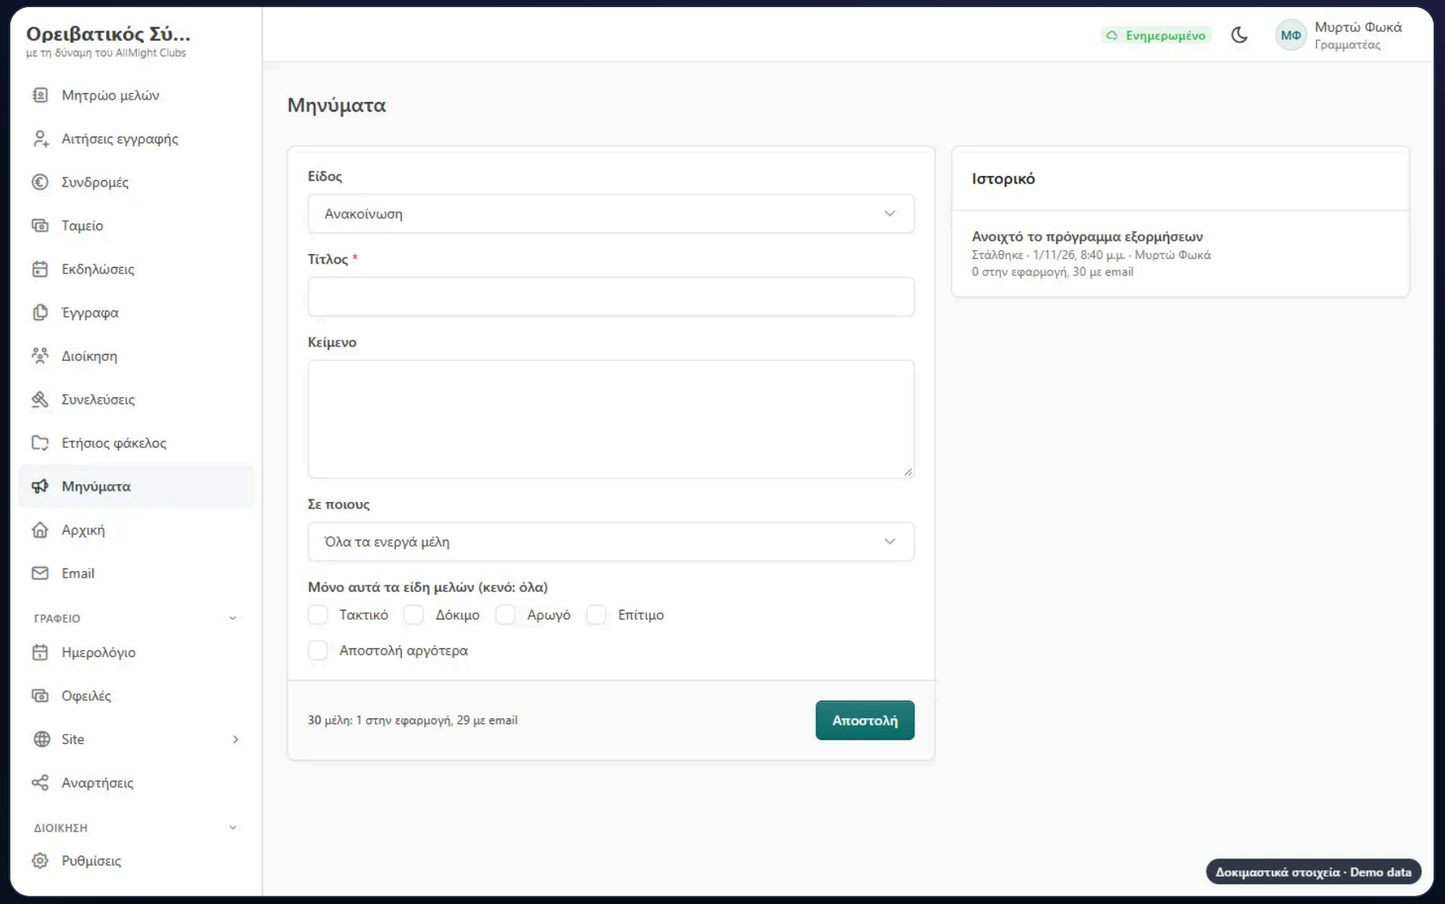

- ✓ Articles only for members, never on the site
- ✓ A member directory only with their consent
- ✓ The card opens without a signal

# Messages to groups of members

Send news to all members, to those who owe, or to those signed up for an event. It reaches their app or their email, and you see how many got it.

- ✓ Scheduled for later
- ✓ Groups by kind of member

# And also

### Roles

The secretary keeps the register, the treasurer the money, the board reads, and a writer writes articles.

### With the AllMight suite

Charges and payments from a shared system, a calendar, documents and e-invoicing where needed.

### Calendar

Events, meetings and deadlines in one place.

### Morning summary

New requests, what is owed and what is pending, every morning in the secretary’s email.

### Personal data

Belonging to a club says something about a person: the member directory opens only with consent.

### Nothing to install

Opens in the browser on a computer, tablet or phone.

# Let’s see it with your members

A demonstration, members moved from Excel, and a trial period.

- ✓ Monthly subscription
- ✓ Members imported from Excel
- ✓ Nothing to install, opens in the browser
