

GYMS, STUDIOS & CHAINS

AllMight Gym

Software for gyms, studios and chains

by computerization4u

One program, four points of view

One program for the whole gym: front desk, trainers, members and the owner. On desktop, tablet and phone.

Front desk

Entry, members, package sales, payments and the daily cash-up.

Trainers

Classes, personal training, workout programmes and their members' progress.

Members

An app with their QR card, bookings, their programme and their progress.

Owner

Numbers, peak hours, class occupancy, trainer pay and branches.

QR entry, even offline

Members show the QR card on their phone.
The front-desk tablet answers at once with
green or red, and says why.

- ✓ Barcode scanner or the tablet’s camera
- ✓ Keeps working when the internet drops
- ✓ «Inside now»: who is in the gym
- ✓ Warnings for debts, medical certificate, contract

Members, packages and memberships

The whole member on one screen: membership, payments, programme, progress and visits.

- ✓ Period or visit packages, time windows, family packages
- ✓ Instalments, sign-up fee, freezing, one-click renewal
- ✓ Expiry and payment reminders by app or email
- ✓ Digital contract signed on a tablet or phone

Classes and bookings

The weekly class timetable. Members book a place from their phone and the desk sees who is coming.

- ✓ Places and an automatic waiting list
- ✓ Rules per package: which classes, how many a week
- ✓ Cancel in time, otherwise the visit counts
- ✓ Reminder before the class

Δοκιμαστικά στοιχεία · Demo data

Personal training

Each trainer's hours, session packs and appointments booked by the desk or by the member. At the end of the month, trainer pay is calculated for you.

- ✓ Session packs or personal training included in a membership
- ✓ Prepaid or single sessions
- ✓ Pay per session, percentage, class or salary
- ✓ Excel export for the accountant

Workout programmes and progress

Trainers build programmes from a ready exercise library. Members see them on their phone and log every workout.

- ✓ Programme templates, assigned to a member in one click
- ✓ Weekly or monthly goals and personal records
- ✓ Progress charts and photos, with consent
- ✓ «My members»: who has fallen behind

The member app

On the gym’s own web address, with its logo.
Members add it to their home screen, no app store needed.

- ✓ QR card, even offline
- ✓ Class and personal training bookings
- ✓ Today’s workout and progress
- ✓ Membership, payments, news and notifications

Cash-up, bar and debts

Every payment is recorded once:
memberships, personal training, the bar. At
the end of the day the cash-up adds itself up.

- ✓ Daily cash-up by payment method and by staff member
- ✓ Bar / shop with stock, or charge to the member
- ✓ Debtors list and reminders
- ✓ Greek myDATA receipts through a certified provider (coming soon)

New members and staying in touch

From the first enquiry to the member who has not come in for a while, you know whom to talk to.

- ✓ Leads and a trial visit with its own QR
- ✓ Messages to groups: expiring, not coming
- ✓ Offers only to those who agreed to receive them
- ✓ Birthday wishes and «we miss you»

Numbers for decisions

How many come in, at what time, which classes fill up and what was sold, compared with the previous period.

- ✓ Visits, new members, package sales
- ✓ Peak hours and days
- ✓ Class occupancy and personal training per trainer
- ✓ A morning email about the day ahead

The gym's website

A ready website with your packages, a sign-up form and a «members area» button, on your own address.

- ✓ Packages and prices straight from the program
- ✓ «I want to join» form
- ✓ Chain branches with a map
- ✓ Three templates in your colours

And also

Chains

Several branches in one account: packages per branch, numbers per branch, one member for all.

GDPR and health data

Consents, encrypted health data, a log of every access, deletion when the time is up.

Roles

Admin, front desk, trainer: everyone sees what they need. Trainers do not see amounts.

Calendar

Classes, personal training and expiries in one calendar, also on the phone.

Even offline

Entry and the member card keep working when the connection drops and sync later.

Nothing to install

Opens in the browser on desktop, tablet and phone, with daily backups.

Let's see it in your gym

A demo with your own packages, a trial period and set-up by us.

- ✓ Monthly subscription
- ✓ Studio, Box, Club or chain
- ✓ Trial period
- ✓ Set-up and training by us
